10.9 at a concentration above 100 ppm.

10.10 (c) Reporting parties are not required to include any specific formula information
10.11 or the specific name and address of the facility that is responsible for introduction of a
10.12 priority chemical into a children's product or product component.

10.13 (d) If the information required in paragraph (a) is not submitted in a timely fashion
10.14 or is incomplete or otherwise unacceptable as determined by the agency, the agency may
10.15 contract with an independent third party of the agency's choice to provide the information
10.16 and may assess a fee on the manufacturer or distributor to pay the costs as specified
10.17 under section 116.9419.

10.18 (e) The agency shall determine on a case-by-case basis if reporting the information
10.19 in paragraph (a), clauses (3) to (9), is required by a manufacturer or distributor whose

10.21 (f) If a manufacturer claims that any of the information provided to the agency under
10.22 this section is trade secret information under section 13.37, subdivision 1, the agency shall
10.23 make a determination regarding the claim. Information determined to be public data shall
10.24 be posted on the agency's Web site. This paragraph does not apply to the presence and
10.25 concentration and total amount of a priority chemical in a specific children's product,
10.26 which is governed under section 116.9403, subdivisions 2 and 3.

10.27 (g) A trade association may file the information required under this section on behalf

11.2 section 116.9410 to the agency every two years.

11.3 (b) If a reporting party determines that there has been no change in the information
11.4 required to be filed under section 116.9410 since the most recent filing, the reporting party
11.5 may submit a written statement indicating that the previously filed data is still valid, in
11.6 lieu of a new duplicate complete report, and must submit the required fees.

11.8 section 116.9410 on the same priority chemical in the same children's product code, each
11.9 subsequent report must include the following information in addition to the information
11.10 required under section 116.9410:

11.11 (1) the product code of the children's product; and

11.12 (2) a description of the manufacturer's attempts to remove the priority chemical
11.13 from the children's product and any evaluation made of the use of safer alternatives to
11.14 substitute for the priority chemical contained in the children's product, including the
