

# 2023 Increase Teachers of Color Act

E12 Bill: HF320 (Rep. Hassan) / SF619 (Sen. Kunesch) Higher Ed Bill: HF381 (Rep. Kozlowski) / SF 267 (Sen. Fateh)

*Closing opportunity gaps to recruit, prepare, employ and retain increased percentages of BIPOC teachers who more closely reflect students in Minnesota's schools*

## OVERVIEW:

- **SYSTEMIC CHANGE:** ITCA proposes **policies and investments that will change systems** which have led to deep inequities in schools. ITCA **strengthens existing programs** and **creates new efforts** needed to increase the percentage of teachers of color and American Indian teachers (TOCAIT) in the state.
- **AFFORDABLE INVESTMENTS:** Proposed appropriations represent a **tiny percentage of the total E12 and Higher Ed budgets** and increases are only 0.66% of the state's historic \$17.6B surplus, but they are expected to have a **significant return on investment** in education, workforce development and the economy.
- **BROAD SUPPORT:** The **previous six ITCA's** from 2017-2022 have each **garnered bipartisan authorship** and have been **endorsed by a total of more than 55 education and community organizations**. House omnibus bills in 2021 and 2022 included almost all ITCA proposals.
- **HISTORIC & UNIQUE IN U.S:** Passing this bill will be historic not only in Minnesota but also in the U.S. because ITCA is considered the **most comprehensive set of legislation in the country** to address the multiple, interconnected factors contributing to the shortage nationally of BIPOC teachers in schools.

This graphic shows the three major categories of proposals in ITCA needed for increasing the percentage of TOCAIT above 4%:

## WHY THE 2023 ITCA IS NEEDED:

- It will address **both the severe, chronic shortage of teachers who reflect our state's increasingly diverse students (37% BIPOC) AND the overall teacher shortage**.
- 2016 law with bipartisan support stated that **all students shall be provided with "improved and equitable access to effective and diverse teachers"** who reflect the diversity of students in schools.
- **All students benefit** with significantly higher percentages of BIPOC teachers.
- **MN must do something different to close our nation-worst opportunity and achievement gaps**. Research has shown that BIPOC teachers reduce gaps.
- Its strategic policies and investments **will finally do what is needed to "move the needle"** and increase the percentage of TOCAIT above 5%. (a net gain of approx. 630 teachers is needed to increase TOCAIT 1%)
- **All sectors of the economy and society will benefit** from increased percentages of TOCAIT.
- **The time is now** to make up for lack of needed previous investments with our state's historic surplus.
