

Please advise all our legislature to vote no to the physician assisted suicide bill. We cannot play God. The Lord has plans for all people. We may not humanly understand, but it is our job to care for them, and make them as comfortable with the dignity that they deserve. We cannot become a throwaway society. And remember, you too are growing older! Consider yourself being told you are no good to society anymore so therefore we will get rid of you. That's evil!
Jean Zwilling
