

May 16, 2025

Dear Co-Chair Klevorn,

Thank you for the opportunity to engage with you on the State and Local Government and Elections Conference Committee. Minnesota Management and Budget (MMB) would be excited to produce a Multisector Healthy Aging Plan with a focus on implementation.

Within MMB, the Planning and Policy Division will prioritize producing a plan that seeks to support Minnesota's growing population of aging adults and promote vibrant and healthy aging. We understand that planning for the well-being of aging Minnesotans throughout their lifespan is of the utmost importance to the state and we are thoroughly committed to this work.

In the planning process, we will utilize our well-established best practices of interagency coordination and will incorporate the voices of the public, especially older Minnesotans and their families. We look to the Legislative Task Force on Aging and its recommendations for guidance on the planning process and content. We will produce and submit a plan by no later than April 1, 2027.

Thank you for your partnership on this important issue.

Sincerely,

A handwritten signature in black ink that reads 'Erin M. Campbell'.

Erin Campbell

Commissioner
