Dear Chair Moller and Chair Latz:

Thank you for the opportunity to allow the Harm Reduction Sisters to weigh in on specific legislation included in the House and Senate versions of the Omnibus Judiciary and Public Safety Finance bills, SF2909.

The House version of the Omnibus Judiciary and Public Safety Finance bill includes HF2041 (Gomez)/SF2261 (Oumou Verbeten), a bill that authorizes syringe services to possess, distribute, and dispose of syringes; authorizes the hypodermic syringes and changes to the state statute related to drug paraphernalia (See House version, Article 16, Sections 1-6 and 13-15).

We are pleased to see HF2041's language included in the Omnibus Judiciary and Public Safety Finance bill as drug paraphernalia policy should focus on saving lives and reducing overdose risks.

History has shown that harsh penalties for drug use and paraphernalia do nothing to help people and only worsen the tragic overdose crisis. Tougher laws and sentences around drug paraphernalia result in more death and avoidable diseases and creates greater risks when individuals seek drugs and drug paraphernalia in the illicit market, particularly impacting low-income people and communities of color. These drug paraphernalia laws also threaten to punish nonusers involved in harm-reduction activities.

The legislation now allows Minnesota to move forward with allowing syringe services providers to operate under and within defined parameters and decriminalize drug paraphernalia and residues contained therein. These changes will undoubtedly reduce harm and save the lives of Minnesotans and we urge the conference committee members to support the inclusion of HF2041.

Thank you for the opportunity to provide feedback to the conference committee.
