84.4 (c) The plan must specifically address special transportation service ridership and needs.
 84.5 The plan must also provide that recipients of operating assistance under this section provide

 84.7 subdivision 7.

84.8 Sec. 9. Minnesota Statutes 2022, section 174.24, subdivision 3b, is amended to read:

84.9 Subd. 3b. **Operating assistance; recipient classifications.** ~~(a) The commissioner shall~~
 84.10 ~~determine the total operating cost of any public transit system receiving or applying for~~
 84.11 ~~assistance in accordance with generally accepted accounting principles. To be eligible for~~
 84.12 ~~financial assistance, an applicant or recipient shall provide to the commissioner all financial~~
 84.13 ~~records and other information and shall permit any inspection reasonably necessary to~~
 84.14 ~~determine total operating cost and correspondingly the amount of assistance that may be~~
 84.15 ~~paid to the applicant or recipient. Where more than one county or municipality contributes~~
 84.16 ~~assistance to the operation of a public transit system, the commissioner shall identify one~~
 84.17 ~~as lead agency for the purpose of receiving money under this section.~~

84.18 ~~(b)~~ (a) Prior to distributing operating assistance to eligible recipients for any contract
 84.19 period, the commissioner ~~shall~~ must place all recipients into one of the following
 84.20 classifications: large urbanized area service, small urban urbanized area service, rural area
 84.21 service, and elderly and disabled service, and complementary paratransit service (ADA).

84.22 ~~(e)~~ (b) The commissioner ~~shall~~ must distribute ~~funds~~ the operating assistance amount
 84.23 under this section so that the percentage of total contracted operating cost from local sources
 84.24 paid by any recipient from local sources will not exceed the following percentage for that
 84.25 recipient's classification, except as provided in this subdivision. The percentages must be:

84.26 (1) for urbanized area service and small urban area service, 20 percent;

84.27 (2) for rural area service, 15 percent; and

84.28 (3) for elderly and disabled service and complementary paratransit service (ADA), 15
 84.29 percent.

84.30 ~~Except as provided in a United States Department of Transportation program allowing or~~
 84.31 ~~requiring a lower percentage to be paid from local sources, the remainder of the recipient's~~
 84.32 ~~total contracted operating cost will be paid from state sources of funds less any assistance~~
 84.33 ~~received by the recipient from the United States Department of Transportation.~~

85.1 ~~(d)~~ (c) For purposes of this subdivision, "local sources" means all local sources of funds
 85.2 and includes all operating revenue, tax levies, and contributions from public funds, ~~except~~
 85.3 ~~that the commissioner may exclude from the total assistance contract revenues derived from~~
 85.4 ~~operations the cost of which is excluded from the computation of total operating cost.~~

85.5 ~~(e)~~ (d) If a recipient informs the commissioner in writing after the establishment of these
 85.6 percentages but prior to the distribution of financial assistance for any year that paying its
 85.7 designated percentage of ~~total operating cost~~ the operating assistance amount from local
 85.8 sources will cause undue hardship, the commissioner may reduce the percentage to be paid
 85.9 from local sources by the recipient and increase the percentage to be paid from local sources
 85.10 by one or more other recipients inside or outside the classification. However, the
 85.11 commissioner may not reduce or increase any recipient's percentage under this paragraph
 85.12 for more than two years successively. If for any year the funds appropriated to the
 85.13 commissioner to carry out the purposes of this section are insufficient to allow the
 85.14 commissioner to pay the state share of ~~total operating cost~~ the operating assistance amount
 85.15 as provided in this paragraph, the commissioner ~~shall~~ must reduce the state share in each
 85.16 classification to the extent necessary.

85.17 Sec. 10. Minnesota Statutes 2022, section 174.24, subdivision 3c, is amended to read:

85.18 Subd. 3c. **Nonoperating assistance.** The commissioner ~~shall~~ must determine the total
 85.19 cost of any planning and engineering design, capital assistance, other capital expenditures,
 85.20 and other assistance for public transit services that furthers the purposes of section 174.21
 85.21 for any public transit system receiving or applying for the assistance in accordance with
 85.22 generally accepted accounting principles. The percentage of local sources paid by any
 85.23 recipient must not exceed 20 percent of the awarded amount. To be eligible for
 85.24 non-operating-cost financial assistance, an applicant or recipient ~~shall~~ must provide to the
 85.25 commissioner all financial records and other information and ~~shall~~ must permit any inspection
 85.26 reasonably necessary to determine total cost and the amount of assistance that may be paid
 85.27 to the applicant or recipient. When more than one county or municipality contributes
 85.28 assistance to the operation of a public transit system, the commissioner ~~shall~~ must identify
 85.29 one as a lead agency for the purpose of receiving money under this section. The commissioner
 85.30 has the sole discretion to determine the amount of state funds distributed to any recipient
 85.31 for non-operating-cost assistance.

86.13 classification under section 174.24, subdivision 3b:

86.14 (i) the operating and capital costs;

86.15 (ii) each of the funding sources used to provide financial assistance; and

86.16 (iii) for federal funds, the amount from each specific federal program under which
86.17 funding is provided;

86.18 (6) a summary of the differences in program implementation requirements and aid
86.19 recipient eligibility between federal aid and state sources of funds; and

86.20 (7) ~~in each odd-numbered year,~~ an analysis of public transit system needs and operating
86.21 expenditures on an annual basis, which must include a methodology for identifying monetary
86.22 needs, and calculations of:

86.23 (i) the total monetary needs for all public transit systems, for the year of the report and
86.24 the ensuing five years;

86.25 (ii) the total expenditures from local sources for each transit system classification;

86.26 (iii) the comprehensive transit assistance percentage for each transit system classification,
86.27 which equals (A) the expenditures identified under item (ii), for a transit system classification,
86.28 divided by (B) the amounts identified under subitem (A), plus the sum of state sources of
86.29 funds plus federal funds provided to all transit systems in that classification; and

87.1 (iv) the amount of surplus or insufficient funds available for paying capital and operating
87.2 costs to fully implement the greater Minnesota transit investment plan under section 174.24,
87.3 subdivision 1a.

87.5 amended to read:

87.6 Subd. 17. **Transportation costs.** (a) "Nonemergency medical transportation service"
87.7 means motor vehicle transportation provided by a public or private person that serves
87.8 Minnesota health care program beneficiaries who do not require emergency ambulance
87.9 service, as defined in section 144E.001, subdivision 3, to obtain covered medical services.

87.10 (b) For purposes of this subdivision, "rural urban commuting area" or "RUCA" means
87.11 a census-tract based classification system under which a geographical area is determined
87.12 to be urban, rural, or super rural.

87.13 (c) Medical assistance covers medical transportation costs incurred solely for obtaining
87.14 emergency medical care or transportation costs incurred by eligible persons in obtaining
87.15 emergency or nonemergency medical care when paid directly to an ambulance company,
87.16 nonemergency medical transportation company, or other recognized providers of
87.17 transportation services. Medical transportation must be provided by:

87.18 (1) nonemergency medical transportation providers who meet the requirements of this
87.19 subdivision;

87.25 subdivision 1, paragraph (h).

87.26 (d) Medical assistance covers nonemergency medical transportation provided by

87.28 programs. All nonemergency medical transportation providers must comply with the
87.29 operating standards for special transportation service as defined in sections 174.29 to 174.30
87.30 and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the
87.31 commissioner and reported on the claim as the individual who provided the service. All
87.32 nonemergency medical transportation providers shall bill for nonemergency medical

88.1 transportation services in accordance with Minnesota health care programs criteria. Publicly
88.2 operated transit systems, volunteers, and not-for-hire vehicles are exempt from the
88.3 requirements outlined in this paragraph.

88.4 (e) An organization may be terminated, denied, or suspended from enrollment if:

88.5 (1) the provider has not initiated background studies on the individuals specified in
88.6 section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or

88.7 (2) the provider has initiated background studies on the individuals specified in section

88.19 (4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single
88.20 administrative structure assessment tool that meets the technical requirements established
88.21 by the commissioner, reconciles trip information with claims being submitted by providers,
88.22 and ensures prompt payment for nonemergency medical transportation services.

88.23 (g) Until the commissioner implements the single administrative structure and delivery
88.24 system under subdivision 18e, clients shall obtain their level-of-service certificate from the
88.25 commissioner or an entity approved by the commissioner that does not dispatch rides for
88.26 clients using modes of transportation under paragraph (l), clauses (4), (5), (6), and (7).

88.27 (h) The commissioner may use an order by the recipient's attending physician, advanced
88.28 practice registered nurse, physician assistant, or a medical or mental health professional to
88.29 certify that the recipient requires nonemergency medical transportation services.

88.30 Nonemergency medical transportation providers shall perform driver-assisted services for
88.31 eligible individuals, when appropriate. Driver-assisted service includes passenger pickup
88.32 at and return to the individual's residence or place of business, assistance with admittance

89.1 of the individual to the medical facility, and assistance in passenger securement or in securing
89.2 of wheelchairs, child seats, or stretchers in the vehicle.

89.3 (i) Nonemergency medical transportation providers must take clients to the health care
89.4 provider using the most direct route, and must not exceed 30 miles for a trip to a primary
89.5 care provider or 60 miles for a trip to a specialty care provider, unless the client receives
89.6 authorization from the local agency.

89.7 (j) Nonemergency medical transportation providers may not bill for separate base rates
89.8 for the continuation of a trip beyond the original destination. Nonemergency medical
89.9 transportation providers must maintain trip logs, which include pickup and drop-off times,
89.10 signed by the medical provider or client, whichever is deemed most appropriate, attesting
89.11 to mileage traveled to obtain covered medical services. Clients requesting client mileage
89.12 reimbursement must sign the trip log attesting mileage traveled to obtain covered medical
89.13 services.

89.14 (k) The administrative agency shall use the level of service process established by the
89.15 commissioner to determine the client's most appropriate mode of transportation. If public
89.16 transit or a certified transportation provider is not available to provide the appropriate service
89.17 mode for the client, the client may receive a onetime service upgrade.

89.18 (l) The covered modes of transportation are:

89.19 (1) client reimbursement, which includes client mileage reimbursement provided to
89.20 clients who have their own transportation, or to family or an acquaintance who provides
89.21 transportation to the client;

89.23 vehicle;

89.24 (3) unassisted transport, which includes transportation provided to a client by a taxicab
89.25 or public transit. If a taxicab or public transit is not available, the client can receive
89.26 transportation from another nonemergency medical transportation provider;

89.27 (4) assisted transport, which includes transport provided to clients who require assistance
89.28 by a nonemergency medical transportation provider;

89.29 (5) lift-equipped/ramp transport, which includes transport provided to a client who is
89.30 dependent on a device and requires a nonemergency medical transportation provider with
89.31 a vehicle containing a lift or ramp;

89.32 (6) protected transport, which includes transport provided to a client who has received
89.33 a prescreening that has deemed other forms of transportation inappropriate and who requires

90.1 a provider: (i) with a protected vehicle that is not an ambulance or police car and has safety
90.2 locks, a video recorder, and a transparent thermoplastic partition between the passenger and
90.3 the vehicle driver; and (ii) who is certified as a protected transport provider; and

90.4 (7) stretcher transport, which includes transport for a client in a prone or supine position
90.5 and requires a nonemergency medical transportation provider with a vehicle that can transport
90.6 a client in a prone or supine position.

90.7 (m) The local agency shall be the single administrative agency and shall administer and
90.8 reimburse for modes defined in paragraph (l) according to paragraphs (p) and (q) when the
90.9 commissioner has developed, made available, and funded the web-based single administrative
90.10 structure, assessment tool, and level of need assessment under subdivision 18e. The local
90.11 agency's financial obligation is limited to funds provided by the state or federal government.

90.12 (n) The commissioner shall:

90.13 (1) verify that the mode and use of nonemergency medical transportation is appropriate;

90.14 (2) verify that the client is going to an approved medical appointment; and

90.15 (3) investigate all complaints and appeals.

90.16 (o) The administrative agency shall pay for the services provided in this subdivision and
90.17 seek reimbursement from the commissioner, if appropriate. As vendors of medical care,
90.18 local agencies are subject to the provisions in section 256B.041, the sanctions and monetary
90.19 recovery actions in section 256B.064, and Minnesota Rules, parts 9505.2160 to 9505.2245.

90.20 (p) Payments for nonemergency medical transportation must be paid based on the client's
90.21 assessed mode under paragraph (k), not the type of vehicle used to provide the service. The
90.22 medical assistance reimbursement rates for nonemergency medical transportation services
90.23 that are payable by or on behalf of the commissioner for nonemergency medical
90.24 transportation services are:

90.25 (1) \$0.22 per mile for client reimbursement;

90.26 (2) up to 100 percent of the Internal Revenue Service business deduction rate for volunteer
90.27 transport;

90.28 (3) equivalent to the standard fare for unassisted transport when provided by public
90.29 transit, and \$12.10 for the base rate and \$1.43 per mile when provided by a nonemergency
90.30 medical transportation provider;

90.31 (4) \$14.30 for the base rate and \$1.43 per mile for assisted transport;

90.32 (5) \$19.80 for the base rate and \$1.70 per mile for lift-equipped/ramp transport;
