

Subject Compliance of Minnesota Statutes and Rules with ERA

Authors Moran and others

Analyst Matt Gehring

Date March 2, 2022

Summary

This bill directs a study of Minnesota Statutes and Rules to determine compliance with the Equal Rights Amendment (ERA) to the United States Constitution, with a specific focus on a review of sex-specific language and sex-specific treatments or requirements.

The revisor of statutes, in coordination with Senate Counsel, Research, and Fiscal Analysis and the House Research Department, is directed to complete the study. A bill correcting any language determined to be in conflict with the ERA must be prepared for the 2023 legislative session.
