

Minnesota Low Spirit Alcohol by Volume (ABV) RTD Tax Rate

Typical **40% ABV** spirits are taxed at **\$5.03/gallon**

Typical **5% low spirit ABV RTDs** are taxed at **\$5.03/gallon**

95% of the liquid in a low spirit ABV RTD does not contain alcohol yet, it is treated like a typical 40% ABV “full strength” spirit.

25 states already recognize that lower ABV spirits should not be taxed at the same rate as “full strength” spirits.

MN should create a low ABV spirit tax category with a different tax rate, just like it does for wine with varying alcohol by volume.

Please support HF2558/SF2537 to create a fairer tax rate for Low ABV spirit products.
