Re: Support for the History Center of Olmsted County's Bonding Proposal

Dear Senator Boldon,

This letter is written in support of the pending bonding bill, "Expansion and Modernization of the History Center of Olmsted County," requested by the Olmsted County Historical Society. As the city area historical society for Stewartville, I believe that this bonding proposal makes sense and will provide a boost for the county overall, as well as for our city area historical societies within it.

We have many new residents coming to our Stewartville area, thanks to our advocacy for new companies in Stewartville and the general growth of the area associated with the Destination Medical Center initiative. Having a strong historical museum and vibrant campus will provide orientation information for our newest residents. It also will serve as a great site for visitors to the area.

I am pleased to support the History Center's bonding request.

Sincerely,

*Cassandra Jefferson*

Stewartville Historical Society Director

City of Stewartville
