Chair Jamie Becker-Finn
House Judiciary Finance and Civil Law Committee
559 State Office Building
St. Paul, MN 55155

Dear Chair Becker-Finn and committee members:

On behalf of Minnesota Farmers Union (MFU), I write to share our strong support for HF17, which would establish a Prescription Drug Affordability Board to stop price-gouging of the medicine that Minnesotans, including family farmers, rely on every day.

MFU is a grassroots organization that has represented Minnesota's family farmers, ranchers and rural communities since 1918. At our annual convention in November, members voted to make healthcare affordability our number one priority for this coming legislative session. With health care prices in Minnesota rising by over 15 percent since 2016, it is no surprise why our members made this the top priority. In 2019, Minnesotans spent \$5.6 billion just on prescription drugs at retail, which was up over 6% from just the year prior.

These costs show up in rising health insurance premiums, with prescription drugs accounting for about 25% of premium costs. As independent business owners, farmers disproportionately face high prices on the individual market, leading them to seek off-farm work or forgo coverage altogether—a decision that could prove financially devastating.

Leading drug manufacturers have amassed massive market power that allows them to gouge Minnesotans. From 1995 to 2015, the 60 largest pharmaceutical companies merged to only 10. In 2017 just four companies produced more than 50 percent of all generic drugs. A study from the University of Pittsburg revealed that drug companies rake in \$8.6 trillion in profits from 2000 to 2018 simply by raising the prices of the most common drugs on the market.

Establishing a Prescription Drug Affordability Board will give Minnesota the ability to hold powerful drug companies accountable, by serving as a watchdog with the authority to set fair upper payment limits for prescription drug costs. The PDAB, along with new prohibitions on excessive price-gouging of generic prescription drugs will help Minnesotans afford the medications they need and help reign in healthcare costs.

We appreciate Rep. Stephenson's leadership on this important issue and urge you to pass HF17. If you have any questions, please contact our Government Relations Director, Stu Lourey, at stu@mfu.org or (320) 232-2047 (C). Thank you for considering the needs and perspectives of Minnesota's farm families.

Sincerely,

A handwritten signature in black ink that reads "Gary Wertish". The signature is written in a cursive style with a large, prominent "G" and "W".

Gary Wertish
President, Minnesota Farmers Union
