To the committee:

Having studied the probable impact of NPVIC for some time, I would offer my observations for your consideration;

There is no benefit to any state or its voters in joining this compact. Membership entails the surrender of your Electoral College votes to the control of others who may very well not share your unique values and perspective. If you join the compact, the voices of your 350,000 voters can be easily overruled by the millions voting in places like California, New York, or Illinois. Your 3 Electoral College Votes belong to the state of Alaska and its people. It is THEIR will that should be represented by the votes of your electors.

The compact is an end run around the U.S. constitution, and a manipulation of the Electoral College. The Electoral College exists to protect the voices of the less populated states from the tyranny of the majority. Please reject membership in the NPVIC. Preserve Alaska's voice in choosing our president.
