

Written Testimony from Susie Collins Against the Pro Act

My name is Susie Collins of Shorewood, MN. I am a concerned citizen of MN who is pro-life from the womb to the tomb and would like to submit this written testimony to be reviewed by all senators & representatives who will be voting on the PRO Act.

I would like to state that I vehemently oppose this bill which would codify abortion into MN law until live birth with no restrictions whatsoever! MN abortion laws currently in place are diabolical and do not protect women or girls and they result in the death of a precious human being, the baby in the womb!

Citizens are being misled and being told that abortion is women's healthcare and a safe procedure. How safe a procedure is it when a child is murdered in the womb of his/her mother? How safe is the procedure when the mother of the child has committed a mortal sin by commissioning an abortionist to murder her child? Mortal sin separates a soul from God and will send a soul to Hell if not confessed & reparation made for that sin.

The womb is a sacred place where life begins at conception and should be the safest place on earth for a human being to be conceived and grow and yet throughout our state, country, and world the womb and baby are under siege.

Here in MN a woodpecker bird is protected and can not be killed and yet a beautiful human being in the womb can be legally killed! Is a bird more precious than a human being to God?

Even most people who call themselves pro-choice are pro-life at some point within the pregnancy of a woman-usually after the 1st trimester, and yet MN has these extreme abortion laws which allow a child to be murdered up until live birth with no provisions made of even allowing a viable child to be born alive and no pain meds given to this child who can feel pain as the child is being tortured and murdered. This is not healthcare for women at all and certainly not for the child.

A woman is pregnant for only 9 months, but a baby is dead forever when aborted! A child can be adopted if the mother cannot care for her baby and there are many wonderful Pregnancy Resource Centers throughout our state & country that will

help women and their babies usually following them until the child is age 2. Why aren't we directing our resources to these clinics and to adoption agencies and promoting a Culture of Life rather than a Culture of Death?

Another reason for shooting down this Pro Act Bill & to change our current radical abortion laws here in MN is because Planned Parenthood has already been shown to harvest baby parts for sale. Many of these body parts, such as the heart, must be harvested from the victim while alive. Can you live with yourself knowing you voted in these radical abortion laws and codified them which will enable this to happen even more frequently? Barbaric!!!!

An article written by Lifenews.com states that abortion was the leading cause of death worldwide in 2022. Please look this article up and read it. It states that Worldometers indicated that there were over 44 million abortions world-wide in 2022. The World Health Organization estimated around 73 million induced abortions take place world-wide each year!!! Is this acceptable to you and do you want to be a part of this? The grim reality is we are killing off the human race through abortion! Human beings are going to be on the endangered species list for extinction if we do not change our wicked ways! Life is precious & a gift from God at any stage which we must all fight to protect. I am asking you to make a New Year's Resolution to get involved in the pro-life movement and vote in laws that protect all citizens including our unborn citizens. You can do great things to stop this senseless slaughter & genocide. You are needed! God needs more boots on the ground to fight this war against humanity. Thank you to those of you who are protecting the life of the unborn and helping to fight against this scourge on humanity.

In closing I want to state that abortion is child sacrifice to Satan and God will show no mercy to those who endorse it. I ask each of you to do an "Examination of Conscience and pray to Jesus for guidance so that God's Will be done. Thank you for your time and service to MN.

Sincerely,

Susie Collins
