

Subject Environmental Review

Authors Heintzeman

Analyst Janelle Taylor

Date February 28, 2025

Summary

This bill eliminates the requirement that the Environmental Quality Board (EQB), Pollution Control Agency (PCA), Department of Natural Resources (DNR), and Department of Transportation, after consultation with political subdivisions, submit a report every three years to the legislature and governor regarding the mandatory categories for an environmental impact statement (EIS) and environmental assessment worksheet (EAW). The report (*Mandatory Environmental Review Categories*) requires a review of the historical purposes of the category, whether projects within the category are subject to local, state, or federal permits, and recommendations for whether the category should be modified, eliminated, or remain unchanged. The report was last completed on December 1, 2024.
