Overview

Under current law, it is a crime to store or leave a loaded firearm in a location where the person knows, or should know, that a child is likely to gain access to the firearm unless the person takes reasonable action to prevent a child from accessing the firearm.

This bill expands the requirements related to the storage of firearms to say that a person must either store a firearm unloaded and equipped with a locking device or else store the firearm in a firearm storage unit. Failure to store firearms as required is a crime that may be punished by a misdemeanor, gross misdemeanor, or felony sentence. The bill also provides that a person who commits the offense of negligent storage of firearms at the gross misdemeanor level is prohibited from possessing a firearm for three years.

Summary

Section	Description
