## Overview

This bill provides a supplementary services rate to a housing support provider located in Winona County that operates five facilities that provide room and board and permanent supportive housing services for adults living with and experiencing mental health and substance use disorders.

The Housing Support Program (formerly known as Group Residential Housing or GRH) is a state program that provides payments on behalf of eligible persons to pay for room and board and related housing services. The Housing Support Program is funded with state general fund dollars and receives some federal reimbursement for food and nutrition costs.

Nearly all housing support providers are authorized to receive the housing support basic room and board rate of \$1,170 per month for group settings or \$1,220 per month for community settings. Recipients in certain housing support settings may also qualify for a supplemental payment that is in addition to this base rate.

In state fiscal year 2023, an average of 20,218 persons received housing support payments each month. Expenditures for the fiscal year were nearly \$200 million. The average monthly payment per person was \$794. More than half of housing support recipients are aged, blind, or disabled, and the rest of the recipients are unable to support themselves due to a disabling condition.
