Date March 4, 2024

Overview

The 2020 Legislature established an urgent-need and a continuing (also referred to as “long-term”) insulin safety net program. The continuing insulin safety net program provides Minnesota residents with incomes less than or equal to 400 percent of the federal poverty guidelines, who meet other program requirements, with a 90-day supply of insulin and allows pharmacies to collect a \$50 copayment for each 90-day supply. The authorizing legislation sunset the continuing insulin safety net program on December 31, 2024, and directed the legislature to determine whether the program should continue beyond the sunset date. This bill repeals the sunset and the related language requiring a legislative determination.

Summary

Section	Description
---------	-------------

- | | |
|---|--|
| 1 | <p>Repealer; sunset for the long-term safety net insulin program.</p> <p>Repeals § 151.74, subdivision 16, effective the day following final enactment. The provision repealed provides a December 31, 2024, sunset date for the long-term safety net insulin program, and requires the legislature to make a determination on whether this program should continue beyond the sunset date.</p> |
