

I am submitting my written testimony to the State Gov Finance and Policy Committee expressing my opposition to HF 3357 'Possession of dangerous weapons prohibited in the Capitol complex'

The intent of this bill is to disarm, criminalize and prevent lawful Permit to Carry Holders with real threats of jail time and/or steep fines simply by exercising their right to carry at the MN State Capitol Complex.

This is the place where we as citizens are able to petition and 'lobby' our governmental officials in a very public place where State of Minnesota business is conducted.

This is just another of many bills meant to disarm and criminalize the many law abiding citizens of Minnesota and to strip them of their right to bear arms under the second amendment to the US Constitution.

This bill is simply an additional push to punish lawful permit to Carry citizens of Minnesota.
