Bill Description

This bill amends MN Section 1. Minnesota Statutes 2022, section 216H.02, subdivision 1 to adjust the Greenhouse gas emission-reduction goal to 15% by 2015 (no change); 30% by 2023 (no change); 50% by 2030 (new); net zero by 2050 (new). The bill also adds language to avoid disproportionate adverse impacts and a requirement for the MPCA to annually review the goal targets and forward any recommended changes to the targets to the legislative committees with jurisdiction over climate change and environmental policy. Additionally, the bill adds definitions of "net zero".

Assumptions

- This fiscal note assumes that the MPCA’s GHG inventory would still be completed every two years and this bill only requires that the reduction targets be reviewed annually.
- Assuming 0.5 FTE is needed to review the most recent Intergovernmental Panel on Climate Change (IPCC) report, coordinate agency discussion and research and prepare the letter of recommendation to the Legislature.

Expenditure and/or Revenue Formula

Program staff to review the IPCC report and coordinate response and prepare the letter of recommendation annually.

- 0.5 FTE x 140,000 = \$70,000/year
- Total program costs: \$70,000 and 0.5 FTE in FY24 and ongoing.

*The annual cost of 1.0 FTE is \$140,000 in FY2023-2027. Annual costs for 1.0 FTE include salary, fringe, and non-specialized employee support costs (work space, computer and office supplies, office equipment, local travel, etc.)

Long-Term Fiscal Considerations

Program costs are assumed to be ongoing.

Local Fiscal Impact

None
