To Whom It May Concern

Regarding: HF 1686 (Hollins) and SF 2033 (Marty):

We are writing to you today in our capacity as chairs of the Minnesota Rabbinical Association to thank you for your support of SF 2033 and HF 1686.

In Ramsey County, the number of people experiencing homelessness is rising and has nearly doubled since 2016. Over 45 families are on the waiting list for emergency shelter, and the 2023 Point-in-Time count conducted on January 25 found well over 300 people sleeping outside. We need help. One-time funds enabled Heading Home Ramsey and partners to increase not only shelter capacity but also create more effective supports and interventions to move people quickly from homelessness to housing. But some funds will expire this spring and more funds are needed.

Heading Home Ramsey's request for \$75 million will fund five critical interventions for five years:

- Continued shelter options for single adults including expanded women's shelter options. The need for women's shelter space frequently exceeds the supply.
- 100-bed shelter for families and additional support for families. This model, established during the pandemic, has produced significantly improved outcomes for families, moving them into housing more quickly.
- Continued operation of day service shelters, providing support to individuals to help them stabilize, connect with resources, and move off the street.
- A low-barrier pilot program serving frequent users of emergency shelter with intensive, 24/7 staffing.
- Outreach, system improvements, and extreme weather support to help address critical immediate needs and move people onto a path to housing more quickly.

These interventions are designed to fill critical gaps while the \$74 million invested by Ramsey County and the City of St. Paul into the construction of deeply affordable housing comes to fruition. Importantly, these efforts will help us achieve our goal of making homelessness rare, brief, and non-recurring – especially for people of color and indigenous people.

In Ramsey County, people who are African American are 8 times more likely to be homeless than people who are white. People who are Native American/Indigenous are 14 times more likely to be homeless than their white counterparts. These unacceptable disparities must be addressed.

As leaders in the Jewish community, we take the injunctions in the Hebrew Bible seriously to provide for those on the margins of our society, such as, "Do not oppress the widow, the orphan, the sojourner, or the poor (Zacharia 7:10). We believe we must pursue justice with vigor (Deuteronomy 16:20), and we know you share our concern for these families and individuals who are experiencing homelessness.

Thank you for considering these proposals at this time of critical need.

Sincerely,

Rabbi Tamar Magill-Grimm  
Rabbi Lynn Liberman  
Rabbi Debra Rappaport  
On Behalf of the Minnesota Rabbinical Association
