HIGH CONFIGURABILITY

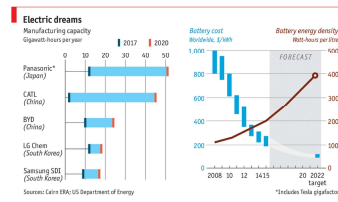

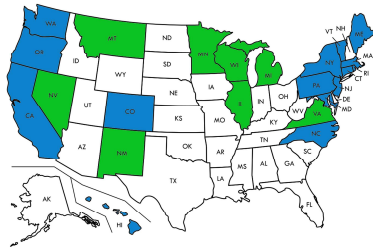

ANNUAL MARKET SIZE

Positive Market Drivers:

Technology Development
California "15 State" Mandates
US Climate Alliance

Charging Infrastructure
Government Leadership
Battery Technology and Pricing

 US Climate Alliance
 "15 State" Mandate and US Climate Alliance

Battery Cell Only, Excludes Packaging and Cooling Systems

Estimated 340,000 Class 4 - 8 Diesel Trucks Built Every Year
Servicing Hundreds of Unique Vocational and Specialty Vehicle Fleets
Electrification Adds to Purchase Price and Market Size

STRONG INDUSTRY LEADING RELATIONSHIPS

CUSTOMERS

SMUD PR 2/1/2021, "This (Zeus) is a phenomenal addition to our fleet," said SMUD General Manager and CEO Paul Lau. "Not only does it showcase the future of electric vehicles and the ability to transition a large fleet to all-electric, but it also reduces our operating costs and greenhouses gases – helping us meet our goal of zero carbon by 2030."

"NESCO Specialty Rentals will be an early adopter and customer of their products when they start rolling off the assembly line."
-Rob Blackadar, President

WORK TRUCK INDUSTRY

SUPPLY CHAIN

"We believe the Zeus Electric Chassis platform will revolutionize the work truck industry and are proud to be one of their strategic partners."

-Curt Ignacio, CEO

EV INDUSTRY

"I think Zeus is going to have a heads-up on the market as it develops."
- Mark Rawson, COO
