Unallotment Update Local Government Tax Aids and Credits FYs 2010-2011

A Presentation to the Local Government Division,
State and Local Government Operations Reform Committee
February 15, 2010

Katherine Schill, House Fiscal Analysis

July 2009 Unallotment Recap Tax Aids and Credits

\$300 million of the unallotment package included reductions of:

- \$147 million in Local Government Aid
- \$100 million in County Program Aid, and
- \$ 53 million in Market Value Credits for Residential and Agricultural homesteads.

Tax Aids and Credits July 2009 Unallotments

Overall reductions by program:

	<u>FY 10</u>	<u>FY 11</u>	<u>Biennium</u>
LGA	- 8.5%	-19.1%	-13.8%
CPA	- 14.5%	-28.9%	-21.8%
MVC	- 10.3%	-14.6%	-12.4%

But it's important to know the details...

Tax Aids and Credits July 2009 Unallotments

Overall Characteristics of \$300 million in reductions:

- 1/3 occur in FY 2010, 2/3 in FY 2011
- 1/3 impact counties, 2/3 to cities and towns
- structured using % jurisdiction's levy + aid
- per capita caps for cities and towns
- exempts smallest and tax base poor communities

Local Property Tax Aids

1. Local Government Aid

This budget activity provides state property tax relief aid to cities, which is distributed according to "need factors" – measured differently for small cities (with populations of under 2,500 residents) versus large cities (with populations of 2,500 or more)- minus the "ability to pay" measured by a city's tax base.

→ Who Benefits?

Local Government Aid (LGA) provides general-purpose funding to 763 of the Minnesota's 854 cities; 608 of these recipient cities have a population less than 2,500.

Local Property Tax Aids

1. Local Government Aid (continued)

Estimated FY 2010 LGA distributions:

608 cities with populations < 2,500 \$ 90.6 million

Of these, 454 cities w/pop's < 1,000

155 cities with populations >2,500 \$435.5 million

→ Who does not benefit from LGA?

Total population in 1,786 townships 988,009

Total population in 69 large cities

and 22 small cities w/o LGA <u>1,477,884</u>

Subtotal 2,465,893 or 47%

Total State population 5,231,106

Property Tax Credits

Residential Market Value Homestead Credit

- This budget activity provides reimbursements to taxing districts (counties, cities, towns, school districts, special districts) for property tax credits issued to residential homeowners.
- Homeowners may receive tax credits equal to 0.4 % of the market value of the parcel up to a maximum of \$304, subject to a phase-out of the credit. The phase-out rate is equal to .09 percent of market value above \$76,000 with no credit issued for homes valued at \$414,000 and above.

Who Benefits? Approximately 1.3 million homeowners

For CY 2008, the average credit was \$210 for homes in greater Minnesota and \$141 for homes in the metro area.

Local Property Tax Aids

2. County Program Aid

- This budget activity provides general purpose aid to <u>all</u> <u>counties</u> to reduce property tax levies, based on the needs of the populations they serve relative to the size of their tax bases.
 - In 2003, county program aid was created to consolidate county general purpose aids into a single program; counties previously received an array of aids including homestead and agricultural credit aid (HACA), county criminal justice aid, family preservation aid, and attached machinery aid.
 - Appropriations payable for CY 2009 and annually thereafter are limited to \$111.5 million for need aid and \$116.1 million for equalization aid.

Local Property Tax Aids

Who Benefits from County Program Aid?

All 87 Minnesota counties

- Need aid tends to be distributed among the counties approximately equal to each county's relative share of the state population.
- Counties in greater Minnesota generally receive a greater share of tax base equalization aid because their tax bases generally are smaller.

Overall Reductions by Program

	<u>Formula</u>	Limit per capita
Pay 2009/ FY 2010		
LGA + MVC		
City	3.31% levy + aid	\$ 22
Town	1.74% levy + aid	\$ 5
CPA		
County	1.19% levy + aid	None
Pay 2010/ FY 2011		
LGA + MVC		
City	7.64% levy + aid	\$ 55
Town	3.66% levy + aid	\$ 10
CPA		
County	2.41% levy + aid	None

Note: Although the percentages differ, these reductions follow the same methodology as cuts done previously through the 2003 Omnibus Tax Act (FYs 2004-05) and the Governor December 2008 unallotments.

Overall Reductions by Program

Who is exempt from these cuts?

- •Jurisdictions with less than 1,000 residents and a below average tax base: approximately 454 small cities and 629 towns
- •Counties with 5,000 or fewer residents or low tax bases --Kittson, Lake of the Woods, Mahnomen, Red Lake and Traverse Counties.

Notes:

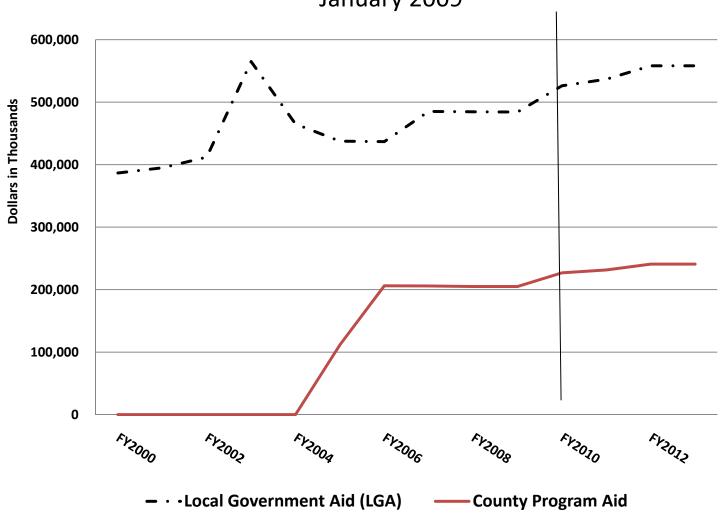

¹Reductions in CYs 2003-2004 were done during the biennial budget process, the same year when formulas for city and county aids were totally rewritten. Overall budget expenditures were reduced by \$2.5 billion for the biennium.

² Reductions in CYs 2005-2006 were done during the biennial budget process

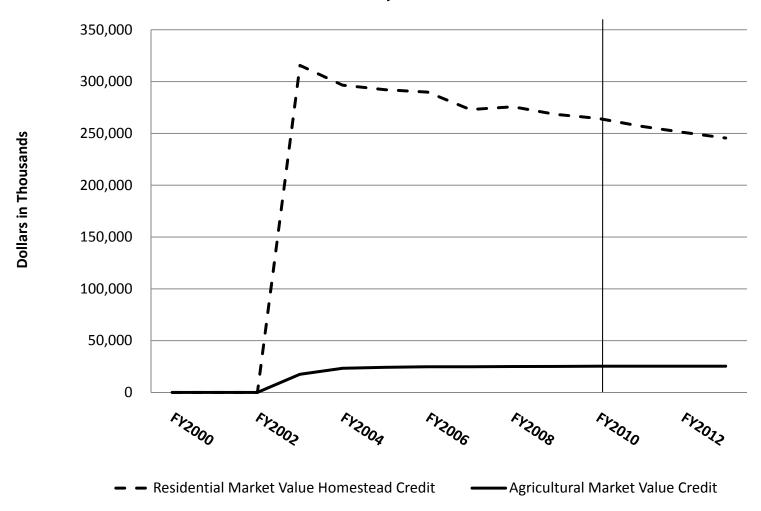

³ Reductions in CY 2008 were done by the Governor's unallotment after the November 2008 forecast revealed a \$426 million deficit for FY 2009. The second of two aids and credits payments to local governments was reduced by \$110 million or approximately 25%, with about 4 weeks notice to local government recipients.

⁴Reductions in CY 2010 were done by the Governor's unallotment after \$2.67 billion budget deficit remained after the Governor's veto for FYs 2010 and 2011. Unallotments for FY 2010 were announced on June 16, 2010 and for FY 2011 on

2009 Session Chapter 88

Local Government Units Authorized to Issue Emergency Debt Certificates

Chapter 88 permits a county, city or town to sell emergency certificates of indebtedness without voter approval to pay for a foreseeable budget deficit when final property tax levies have already been certified. This provision could be activated by an unallotment of state funding for local government aids or credits, by lower than expected property tax receipts due to foreclosures or by other unanticipated revenue insufficiencies.

2009 Session Chapter 88

Adds levy recertification to accommodate late unallotment Adds special levy for reductions in market value credits

Chapter 88 allows a county or a city to recertify its property tax levy by January 15 if the December aid and credit payments from the state are reduced due to unallotment. The act also allows a special levy to replace the estimated amount of reduction in market value credits payable in the year in which the levy is payable. These provisions are to be used in extraordinary times.

Update on Levies

 How much did local governments use special levies to recapture funds that were unallotted by Pay 2008 and Pay 2009 executive actions?

According to DOR records, on average, special levies were used by cities to regain about 55% of their unallotted funds, and by counties to regain 60% of their unallotted funds. Small cities likely recaptured more than 55% of their unallotted funds.

Notes

- 1) The November 2009 forecasted deficit for the FY 2010-2011 biennium is \$2.7 billion. The Governor's actions to balance the FY 2010 budget include numerous other reductions. A summary is available at http://www.house.leg.state.mn.us/fiscal/files/09unallotsum.pdf
- 2) LGA means Local Government Aid, CPA means County Program Aid, and MVC means Market Value Credit (combined residential and agricultural).
- 3) The five counties exempted from these reductions due to low population and tax base are Kittson, Lake of the Woods, Mahnomen, Red Lake and Traverse. Similarly, 505 or 60% of Minnesota's 854 cities have fewer than 1,000 residents and are also exempted from unallotment.
- 4) Pay 2009 reductions have a per capita maximum: \$22 for cities and \$5 townships. Also no city's reduction can exceed 3.31 % of annual aid plus levy for Pay 2009 and no county's reduction can be more than 1.19% of annual aid plus levy for Pay 2009.

Notes:

¹⁾ The November 2008 forecasted deficit for FY 2009 is \$426 million. The Governor's actions to balance the FY 2009 budget include the use of \$155 million in reserve funds and expenditure cuts of \$271.4 million. A breakdown of this budget corrective action is as follows: \$155 million or 36.3% from budget reserves, \$110 million or 25.8% in reductions to Local Government Aids and Credits, \$73 million or 17.1% in reduced spending for Human Services programs, \$40 million or 9.4% in cuts to the University of Minnesota and the Minnesota State Colleges and Universities, \$40 million or 9.4% in cuts to unexpended state agency budgets for operations, and \$8.4 million or 2.0% in cuts to other areas of the state budget which includes the State Legislature.

²⁾ LGA means Local Government Aid, CPA means County Program Aid, and MVC means Market Value Credit (combined residential and agricultural).

³⁾ Four of Minnesota's 87 counties (Kittson, Lake of the Woods, Red Lake and Traverse) have less than 5,000 residents and were exempted from these reductions. Similarly, 505 or 60% of Minnesota's 854 cities have fewer than 1,000 residents and are also exempted from unallotment.

Appropriation Type: Statutory, Standing Fund: General

Description: This budget activity provides state property tax relief aid to cities that is distributed according to "need factors" – measured differently for small cities (with populations of under 2,500 residents) versus large cities (with populations of 2,500 or more)-minus the "ability to pay" measured by cities' tax base. Local Government Aid (LGA) provides general-purpose funding to 763 Minnesota cities annually; 608 of these cities have a population less than 2,500. The program underwent significant changes in calendar year 2003 including a reduction in funding and the elimination of most "grandfathered" aid components. In addition, appropriations payable for CY 2006 and beyond were set at \$485,052,000. During the 2008 legislative session, appropriations for CY 2009 and beyond were increased by \$42 million per year for a total of \$526,148,487. In addition, appropriations for CY 2010 are increased to include an inflation adjustment of 2% and for CY 2011 and beyond, an adjustment of 4%. Of the total annual appropriation, approximately \$494,000 is retained by the Commissioner of Revenue to pay for various intergovernmental service costs pursuant to Minnesota Statutes 477A.014, subd. 4-5.

Appropriation Type: Statutory, Standing Fund: General

Description: This budget activity provides general purpose aid to Minnesota's 87 counties to reduce property tax levies, based on the needs of the populations they serve relative to the size of their tax bases. CPA is distributed through two main formulas, roughly equal in size. The need aid formula is based on each country' relative share of needy populations; the tax base equalization is based on the size of each country's tax base relative to its population. Appropriations payable for CY 2009 and annually thereafter are limited to \$111.5 million for need aid and \$116.1 million for equalization aid for a total of \$227.6 million. In addition, appropriations for CY 2010 are increased to include an inflation adjustment of 2% and for CY 2011 and beyond, an adjustment of 4%. Of the total annual appropriation, \$500,000 is retained by the Commissioner of Revenue to pay for public defender costs pursuant to Minnesota Statutes 611.27.

Appropriation Type: Statutory, Open Fund: General

Description: This budget activity reflects reimbursements to taxing districts for property tax credits issued to residential homeowners. Under this program, homeowners may receive tax credits equal to 0.4 percent of the market value of the parcel up to a maximum of \$304, subject to a phase-out of the credit beginning at \$76,000 in market value. The phase-out rate is equal to .09 percent of market value above \$76,000 with no credit for homes valued at \$414.000 and above.

For School Districts, reimbursement is provided for the amount of the Homestead Market Value Credit deducted from each school district's tax revenues in proportion to each district's share of the gross tax, excluding school referendums.

For Non-School entities (local governments), reimbursement is provided for the amount of the Homestead Market Value Credit deducted from each local government's tax revenues in proportion to the local government's share of the gross tax.

For CY 2008, over one million homesteads participated. The average credit was \$210 for homes in greater Minnesota and \$141 for home in the metro area.

% Chg	0.1%	0.4%	0.2%	0.5%	0%	0%	0%				

Appropriation Type: Statutory, Open Fund: General

Description: This budget activity reflects reimbursements to taxing jurisdictions for property tax credits issued to owners of agricultural property minus the value of the house, garage and 1 acre of land. Applicants receive tax credits equal to 0.3 percent of the market value of the parcel up to a maximum of \$345 subject to a phase-back of the credit beginning at \$115,000 in market value. The phase-back rate, equal to .05 percent of market value above \$115,000, reduces the credit amount to a maximum of \$230 for farms valued at \$345,000 and above.

For School Districts, reimbursement is provided for the amount of the Agricultural Market Value Credit deducted from each school district's tax revenues in proportion to each district's share of the gross tax, excluding school referendums.

For Non-School entities (local governments), reimbursement is provided for the amount of the Agricultural Market Value Credit deducted from each local government's tax revenues in proportion to the local government's share of the gross tax.

Senior Deferral Reimbursement [Minnesota Statutes, section 290B.09, subd 2]

Appropriation Type: Statutory, Open Fund: General

Description: This budget activity allows certain seniors, age 65 years and over and who have a total household income of \$60,000 or less, to defer the amount of their property taxes that exceeds three percent of their household income to a later time. The state pays the amount of the deferred tax, including special assessments and other charges that appear on the property tax statement, to the county where the property is located. In 2006, slightly over 130 seniors were enrolled in this program.
