Subject: Omnibus Bill Opposition

To Whom It May Concern:

Please oppose the Omnibus Bill. There is no evidence that suggests the current process needs to be changed. It also appears the Omnibus Bill is a step backwards making the process more difficult instead of streamlining as in the 2011 Homeschool Mandate Reduction bill. Please stop the unnecessary regulation and paperwork. This bill is a waste of time and energy, for all parties involved with the execution of the proposal. In addition, our choice to homeschool would be violated by this bill in the sense that my children's private information would be shared with an "uninterested" party.
