

Who will cannabis legalization hurt the most?

Rates of marijuana addiction among teens (12-17 yr. old) increase after legalization by up to 25% higher.

Majority of users are 18-25 year-old's, a time when the brain is still developing and important life decisions are often made.

It's not your parents pot—THC levels can be over 20% compared to potency decades ago.

The illegal marijuana market has grown in states that have legalized.
