3.11 (5) any additional information requested by the commissioner as necessary to implement the requirements of this section.
(b) With the approval of the commissioner, a manufacturer may supply the information required in paragraph (a) for a category or type of product rather than for each individual product.

(c) A manufacturer must submit the information required under this subdivision whenever a new product that contains intentionally added PFAS is sold, offered for sale, or distributed in the state and update and revise the information whenever there is significant change in the information or when requested to do so by the commissioner.

(d) The commissioner may extend the deadline for submission by a manufacturer of the information required under subdivision 2 if the commissioner determines that more time is needed by the manufacturer to comply with the submission requirement.

Subd. 4. Testing required and certificate of compliance. (a) If the commissioner has reason to believe that a product contains intentionally added PFAS and the product is being offered for sale in the state, the commissioner may direct the manufacturer of the product to, within 30 days, provide the commissioner with testing results that demonstrate the amount of each of the PFAS, identified by its chemical abstracts service registry number, in the
product, reported as an exact quantity determined using commercially available analytical methods or as falling within a range approved for reporting purposes by the commissioner.

(b) If testing demonstrates that the product does not contain intentionally added PFAS, the manufacturer must provide the commissioner a certificate attesting that the product does not contain intentionally added PFAS, including testing results and any other relevant information.

c) If testing demonstrates that the product contains intentionally added PFAS, the manufacturer must provide the commissioner with the testing results and the information required under subdivision 2.

intentionally added PFAS and designate effective dates. A prohibition adopted under this paragraph must be effective no earlier than January 1, 2025, and no later than January 1, 2032. The commissioner must prioritize the prohibition of the sale of product categories that, in the commissioner's judgment, are most likely to contaminate or harm the state's environment and natural resources if they contain intentionally added PFAS.

(c) Beginning January 1, 2032, a person may not sell, offer for sale, or distribute for sale in this state any product that contains intentionally added PFAS, unless the commissioner has determined by rule that the use of PFAS in the product is a currently unavoidable use. The commissioner may specify specific products or product categories for which the commissioner has determined the use of PFAS is a currently unavoidable use. The commissioner may not determine that the use of PFAS in a product is a currently unavoidable use if the product is listed in paragraph (a).

(d) The commissioner may not take action under paragraph (b) or (c) with respect to a pesticide, as defined under chapter 18B, a fertilizer, an agricultural liming material, a plant amendment, or a soil amendment as defined under chapter 18C, unless the commissioner of agriculture approves the action.
