

Your bathroom is **NOT** inclusive unless it has a

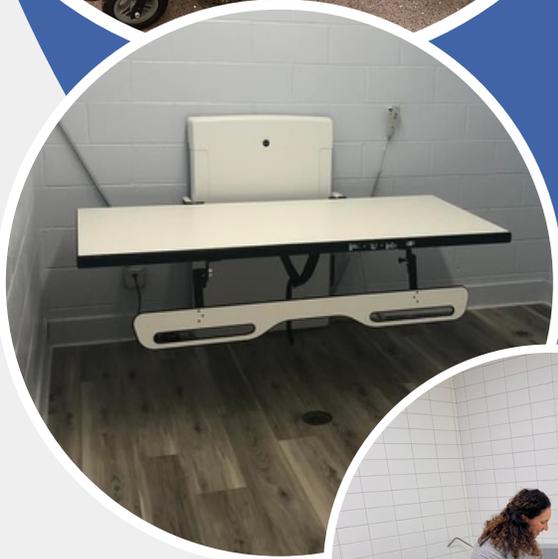

Universal

CHANGING TABLE

True community inclusion means giving our loved ones with disabilities a safe, private, and hygienic place to address toileting needs while in our community.

WITHOUT THESE CHANGING TABLES...

- Baby Changing Tables are **TOO SMALL** for big kids and adults to use.
- Individuals are being changed in unhygienic, undignified, and unsafe places such as bathroom floors.
- Individuals are left out of society because of a lack of inclusive restroom facilities.

ABOUT UNIVERSAL CHANGING TABLES

- Fits anyone of any size
- Supports 400 lbs
- Is height-adjustable
- Gives a place for individuals to change safely & with dignity

HOW DO I INSTALL ONE?

Find resources at

www.ChangingSpacesCampaign.com

WITH UNIVERSAL CHANGING TABLES...

You will welcome everyone to your building, park, etc., including:

- Aging individuals
- Individuals with disabilities & medical conditions
- Their family members, friends and caregivers who cannot spend time in the community with their loved ones

No more rushing home to address restroom needs.

No more staying at home in isolation.

WHICH STYLE IS BEST?

- Adjustable-height tables are the safest, most inclusive option.
- Adjustable-height tables can be lowered for a safe transfer and raised up for diaper changing.
- The table should be located somewhere private, like in a Family bathroom.

ABOUT THE CHANGING SPACES CAMPAIGN

- We are a nationwide network of advocates
- We advocate for inclusive restrooms for people of all abilities
- We believe everyone deserves dignity and inclusion
