Overview

This bill modifies requirements related to a developmental adapted physical education evaluation, and requires the commissioner to recommend changes to reduce special education costs.

Summary

Section	Description
1	Individualized education programs. Allows a district to conduct an assessment for developmental adapted physical education as a stand-alone evaluation without conducting a comprehensive evaluation of the student. Allows a parent to request that a school district conduct a comprehensive evaluation of the student.
2	Special education funding recommendations. Requires the commissioner to review special education delivery and costs and recommend changes to reduce costs. Requires the commissioner to consult with stakeholders. Requires the commissioner to report to the legislature by January 5, 2025.
