Dear Members of the House Committee on Higher Education Finance and Policy,

I am writing today on behalf of the University of St Thomas Undergraduate Student Government to express our collective support for the passage of HF3933. This bill has been tirelessly worked on through research conducted by the Minnesota Association of Private College Students.

The importance of having easy access to nutritional food is vital to the success of all Minnesota college students regardless of if they attend public or private school. This bill will do a great deal of good for our campus and the other private colleges in the State of Minnesota. I fully support the amendment to the Hunger-Free Campus Law.

The University of St Thomas Undergraduate Student Government hereby endorses the amendment to the Hunger-Free Campus Law. Our members very much appreciated the willingness of your committee members to consider the hard work conducted by the Minnesota Association of Private College Students. In keeping with Student Government's shared vision of advancing the common good, we hope that this letter of support, along with our desire to make our campus Hunger Free, creates a dialogue amongst the Minnesota State Legislators that results in the passage of this bill.

Thank you for your time and consideration.

Sincerely,
