Minnesota Statutes 2020, section 60A.092, subdivision 10a, is amended to read: 14.10 Subd. 10a. Other jurisdictions. The reinsurance is ceded and credit allowed to an 14.11 assuming insurer not meeting the requirements of subdivision 2, 3, 4, 5, or 10, or 10b, but 14.12 only with respect to the insurance of risks located in jurisdictions where the reinsurance is 14.13 required by applicable law or regulation of that jurisdiction. 14.14 **EFFECTIVE DATE.** This section is effective January 1, 2022, and applies to reinsurance 14.15 14.16 contracts entered into or renewed on or after that date. Sec. 2. Minnesota Statutes 2020, section 60A.092, is amended by adding a subdivision to 14.17 read: 14.18 Subd. 10b. Credit allowed; reciprocal jurisdiction. (a) Credit shall be allowed when 14.19 the reinsurance is ceded to an assuming insurer meeting each of the following conditions: 14.20 (1) the assuming insurer must have its head office in or be domiciled in, as applicable, 14.21 and be licensed in a reciprocal jurisdiction. A "reciprocal jurisdiction" means a jurisdiction 14.22 14.23 that is: (i) a non-United States jurisdiction that is subject to an in-force covered agreement with 14.24 the United States, each within its legal authority, or, in the case of a covered agreement 14.25 14.26 between the United States and the European Union, is a member state of the European Union. For purposes of this subdivision, a "covered agreement" means an agreement entered 14.27 into pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, United 14.28 States Code, title 31, sections 313 and 314, that is currently in effect or in a period of 14.29

provisional application and addresses the elimination, under specified conditions, of collateral 14.30 14.31 requirements as a condition for entering into any reinsurance agreement with a ceding insurer domiciled in Minnesota or for allowing the ceding insurer to recognize credit for reinsurance; 14.32

(ii) a United States jurisdiction that meets the requirements for accreditation under the 15.1 National Association of Insurance Commissioners (NAIC) financial standards and 15.2 15.3 accreditation program; or (iii) a qualified jurisdiction, as determined by the commissioner, which is not otherwise 15.4 15.5 described in item (i) or (ii) and which meets the following additional requirements, consistent with the terms and conditions of in-force covered agreements: 15.6 (A) provides that an insurer which has its head office or is domiciled in such qualified 15.7 jurisdiction shall receive credit for reinsurance ceded to a United States-domiciled assuming 15.8 insurer in the same manner as credit for reinsurance is received for reinsurance assumed by 15.9 15.10 insurers domiciled in such qualified jurisdiction; (B) does not require a United States-domiciled assuming insurer to establish or maintain 15.11 15.12 a local presence as a condition for entering into a reinsurance agreement with any ceding insurer subject to regulation by the non-United States jurisdiction or as a condition to allow 15.13 the ceding insurer to recognize credit for such reinsurance; 15.14 (C) recognizes the United States state regulatory approach to group supervision and 15.15 group capital, by providing written confirmation by a competent regulatory authority, in 15.16 such qualified jurisdiction, that insurers and insurance groups that are domiciled or maintain 15.17 their headquarters in this state or another jurisdiction accredited by the NAIC shall be subject 15.18 only to worldwide prudential insurance group supervision including worldwide group 15.19 governance, solvency and capital, and reporting, as applicable, by the commissioner or the 15.20 commissioner of the domiciliary state and will not be subject to group supervision at the 15.21 level of the worldwide parent undertaking of the insurance or reinsurance group by the 15.22 qualified jurisdiction; and 15.23 (D) provides written confirmation by a competent regulatory authority in such qualified 15.24 jurisdiction that information regarding insurers and their parent, subsidiary, or affiliated 15.25 entities, if applicable, shall be provided to the commissioner in accordance with a 15.26 memorandum of understanding or similar document between the commissioner and such 15.27 15.28 qualified jurisdiction, including but not limited to the International Association of Insurance Supervisors Multilateral Memorandum of Understanding or other multilateral memoranda 15.29 of understanding coordinated by the NAIC; 15.30 (2) the assuming insurer must have and maintain, on an ongoing basis, minimum capital 15.31 and surplus, or its equivalent, calculated according to the methodology of its domiciliary 15.32 jurisdiction, on at least an annual basis as of the preceding December 31 or on the date 15.33 otherwise statutorily reported to the reciprocal jurisdiction, in the following amounts: 15.34

16.1	(i) no less than \$250,000,000; or
16.2	(ii) if the assuming insurer is an association, including incorporated and individual
16.3	unincorporated underwriters:
16.4	(A) minimum capital and surplus equivalents, net of liabilities, or own funds of the
16.5	equivalent of at least \$250,000,000; and
16.6	(B) a central fund containing a balance of the equivalent of at least \$250,000,000;
16.7	(3) the assuming insurer must have and maintain, on an ongoing basis, a minimum
16.8	solvency or capital ratio, as applicable, as follows:
16.9	(i) if the assuming insurer has its head office or is domiciled in a reciprocal jurisdiction
16.10	defined in clause (1), item (i), the ratio specified in the applicable covered agreement;
16.11	(ii) if the assuming insurer is domiciled in a reciprocal jurisdiction defined in clause (1)
16.12	item (ii), a risk-based capital ratio of 300 percent of the authorized control level, calculated
16.13	in accordance with the formula developed by the NAIC; or
16.14	(iii) if the assuming insurer is domiciled in a Reciprocal Jurisdiction defined in clause
16.15	(1), item (iii), after consultation with the reciprocal jurisdiction and considering any
16.16	recommendations published through the NAIC Committee Process, such solvency or capita
16.17	ratio as the commissioner determines to be an effective measure of solvency;
16.18	(4) the assuming insurer must agree and provide adequate assurance in the form of a
16.19	properly executed Form RJ-1 of its agreement to the following:
16.20	(i) the assuming insurer must provide prompt written notice and explanation to the
16.21	commissioner if it falls below the minimum requirements set forth in clause (2) or (3), or
16.22	if any regulatory action is taken against the assuming insurer for serious noncompliance
16.23	with applicable law;
16.24	(ii) the assuming insurer must consent in writing to the jurisdiction of the courts of
16.25	Minnesota and to the appointment of the commissioner as agent for service of process. The
16.26	commissioner may require that consent for service of process be provided to the
16.27	commissioner and included in each reinsurance agreement. Nothing in this subdivision shall
16.28	limit or in any way alter the capacity of parties to a reinsurance agreement to agree to
16.29	alternative dispute resolution mechanisms, except to the extent such agreements are
16.30	unenforceable under applicable insolvency or delinquency laws:

06/12/21	REVISOR	RSI/NB	21-04310

17.1 (iii) the assuming insurer must consent in writing to pay all final judgments, wherever enforcement is sought, obtained by a ceding insurer or its legal successor, that have been 17.2 declared enforceable in the jurisdiction where the judgment was obtained; 17.3 (iv) each reinsurance agreement must include a provision requiring the assuming insurer 17.4 to provide security in an amount equal to 100 percent of the assuming insurer's liabilities 17.5 attributable to reinsurance ceded pursuant to that agreement if the assuming insurer resists 17.6 17.7 enforcement of a final judgment that is enforceable under the law of the jurisdiction in which 17.8 it was obtained or a properly enforceable arbitration award, whether obtained by the ceding insurer or by its legal successor on behalf of its resolution estate; 17.9 17.10 (v) the assuming insurer must confirm that it is not presently participating in any solvent scheme of arrangement which involves this state's ceding insurers, and agree to notify the 17.11 ceding insurer and the commissioner and to provide security in an amount equal to 100 17.12 percent of the assuming insurer's liabilities to the ceding insurer, should the assuming insurer 17.13 enter into such a solvent scheme of arrangement. The security shall be in a form consistent 17.14 with sections 60A.092, subdivision 10, 60A.093, 60A.096, and 60A.097. For purposes of 17.15 this section, the term "solvent scheme of arrangement" means a foreign or alien statutory 17.16 or regulatory compromise procedure subject to requisite majority creditor approval and 17.17 judicial sanction in the assuming insurer's home jurisdiction either to finally commute 17.18 liabilities of duly noticed classed members or creditors of a solvent debtor, or to reorganize 17.19 or restructure the debts and obligations of a solvent debtor on a final basis, and which may 17.20 be subject to judicial recognition and enforcement of the arrangement by a governing 17.21 authority outside the ceding insurer's home jurisdiction; and 17.22 17.23 (vi) the assuming insurer must agree in writing to meet the applicable information filing requirements set forth in clause (5); 17.24 (5) the assuming insurer or its legal successor must provide, if requested by the 17.25 commissioner, on behalf of itself and any legal predecessors, the following documentation 17.26 to the commissioner: 17.27 17.28 (i) for the two years preceding entry into the reinsurance agreement and on an annual basis thereafter, the assuming insurer's annual audited financial statements, in accordance 17.29 with the applicable law of the jurisdiction of its head office or domiciliary jurisdiction, as 17.30 applicable, including the external audit report; 17.31 (ii) for the two years preceding entry into the reinsurance agreement, the solvency and 17.32

17.33

financial condition report or actuarial opinion, if filed with the assuming insurer's supervisor;

18.1	(iii) prior to entry into the reinsurance agreement and not more than semiannually
18.2	thereafter, an updated list of all disputed and overdue reinsurance claims outstanding for
18.3	90 days or more, regarding reinsurance assumed from ceding insurers domiciled in the
18.4	United States; and
18.5	(iv) prior to entry into the reinsurance agreement and not more than semiannually
18.6	thereafter, information regarding the assuming insurer's assumed reinsurance by ceding
18.7	insurer, ceded reinsurance by the assuming insurer, and reinsurance recoverable on paid
18.8	and unpaid losses by the assuming insurer to allow for the evaluation of the criteria set forth
18.9	in clause (6);
18.10	(6) the assuming insurer must maintain a practice of prompt payment of claims under
18.11	reinsurance agreements. The lack of prompt payment will be evidenced if any of the
18.12	following criteria is met:
18.13	(i) more than 15 percent of the reinsurance recoverables from the assuming insurer are
18.14	overdue and in dispute as reported to the commissioner;
18.15	(ii) more than 15 percent of the assuming insurer's ceding insurers or reinsurers have
18.16	overdue reinsurance recoverable on paid losses of 90 days or more which are not in dispute
18.17	and which exceed for each ceding insurer \$100,000, or as otherwise specified in a covered
18.18	agreement; or
18.19	(iii) the aggregate amount of reinsurance recoverable on paid losses which are not in
18.20	dispute, but are overdue by 90 days or more, exceeds \$50,000,000, or as otherwise specified
18.21	in a covered agreement;
18.22	(7) the assuming insurer's supervisory authority must confirm to the commissioner by
18.23	December 31, 2021, and annually thereafter, or at the annual date otherwise statutorily
18.24	reported to the reciprocal jurisdiction, that the assuming insurer complies with the
18.25	requirements set forth in clauses (2) and (3); and
18.26	(8) nothing in this subdivision precludes an assuming insurer from providing the
18.27	commissioner with information on a voluntary basis.
18.28	(b) The commissioner shall timely create and publish a list of reciprocal jurisdictions.
18.29	The commissioner's list shall include any reciprocal jurisdiction as defined under paragraph
18.30	(a), clause (1), items (i) and (ii), and shall consider any other reciprocal jurisdiction included
18.31	on the NAIC list. The commissioner may approve a jurisdiction that does not appear on the
18.32	NAIC list of reciprocal jurisdictions in accordance with criteria developed under rules issued
18.33	by the commissioner. The commissioner may remove a jurisdiction from the list of reciprocal

jurisdictions upon a determination that the jurisdiction no longer meets the requirements of a reciprocal jurisdiction, in accordance with a process set forth in rules issued by the commissioner, except that the commissioner shall not remove from the list a reciprocal jurisdiction as defined under paragraph (a), clause (1), items (i) and (ii). Upon removal of a reciprocal jurisdiction from the list, credit for reinsurance ceded to an assuming insurer which has its home office or is domiciled in that jurisdiction shall be allowed, if otherwise allowed pursuant to law.

- (c) The commissioner shall timely create and publish a list of assuming insurers that have satisfied the conditions set forth in this subdivision and to which cessions shall be granted credit in accordance with this subdivision. The commissioner may add an assuming insurer to the list if an NAIC accredited jurisdiction has added the assuming insurer to a list of assuming insurers or if, upon initial eligibility, the assuming insurer submits the information to the commissioner as required under paragraph (a), clause (4), and complies with any additional requirements that the commissioner may impose by rule, except to the extent that they conflict with an applicable covered agreement.
- (i) If an NAIC-accredited jurisdiction has determined that the conditions set forth in paragraph (a), clause (2), have been met, the commissioner has the discretion to defer to that jurisdiction's determination, and add such assuming insurer to the list of assuming insurers to which cessions shall be granted credit in accordance with this paragraph. The commissioner may accept financial documentation filed with another NAIC-accredited jurisdiction or with the NAIC in satisfaction of the requirements of paragraph (a), clause (2);
- (ii) When requesting that the commissioner defer to another NAIC-accredited jurisdiction's determination, an assuming insurer must submit a properly executed Form RJ-1 and additional information as the commissioner may require. A state that has received such a request will notify other states through the NAIC Committee Process and provide relevant information with respect to the determination of eligibility.
- (d) If the commissioner determines that an assuming insurer no longer meets one or more of the requirements under this subdivision, the commissioner may revoke or suspend the eligibility of the assuming insurer for recognition under this subdivision in accordance with procedures set forth in rule. While an assuming insurer's eligibility is suspended, no reinsurance agreement issued, amended, or renewed after the effective date of the suspension qualifies for credit, except to the extent that the assuming insurer's obligations under the contract are secured in accordance with this section. If an assuming insurer's eligibility is revoked, no credit for reinsurance may be granted after the effective date of the revocation

with respect to any reinsurance agreements entered into by the assuming insurer, including 20.1 reinsurance agreements entered into prior to the date of revocation, except to the extent that 20.2 20.3 the assuming insurer's obligations under the contract are secured in a form acceptable to the commissioner and consistent with the provisions of this section. 20.4 20.5 (e) Before denying statement credit or imposing a requirement to post security with respect to paragraph (d) or adopting any similar requirement that will have substantially the 20.6 same regulatory impact as security, the commissioner shall: 20.7 (1) communicate with the ceding insurer, the assuming insurer, and the assuming insurer's 20.8 supervisory authority that the assuming insurer no longer satisfies one of the conditions 20.9 20.10 listed in paragraph (a), clause (2); (2) provide the assuming insurer with 30 days from the initial communication to submit 20.11 20.12 a plan to remedy the defect, and 90 days from the initial communication to remedy the defect, except in exceptional circumstances in which a shorter period is necessary for 20.13 policyholder and other consumer protection; 20.14 (3) after the expiration of 90 days or less, as set out in clause (2), if the commissioner 20.15 determines that no or insufficient action was taken by the assuming insurer, the commissioner 20.16 may impose any of the requirements as set out in this paragraph; and 20.17 (4) provide a written explanation to the assuming insurer of any of the requirements set 20.18 out in this paragraph. 20.19 20.20 (f) If subject to a legal process of rehabilitation, liquidation, or conservation, as applicable, the ceding insurer, or its representative, may seek and, if determined appropriate by the 20.21 court in which the proceedings are pending, may obtain an order requiring that the assuming 20.22 insurer post security for all outstanding ceded liabilities. 20.23 20.24 (g) Nothing in this subdivision limits or in any way alters the capacity of parties to a 20.25 reinsurance agreement to agree on requirements for security or other terms in the reinsurance agreement, except as expressly prohibited by applicable law or rule. 20.26 20.27 (h) Credit may be taken under this subdivision only for reinsurance agreements entered into, amended, or renewed on or after the effective date of this subdivision, and only with 20.28 respect to losses incurred and reserves reported on or after the later of: (1) the date on which 20.29 the assuming insurer has met all eligibility requirements pursuant to this subdivision; and 20.30 (2) the effective date of the new reinsurance agreement, amendment, or renewal. This 20.31 paragraph does not alter or impair a ceding insurer's right to take credit for reinsurance, to 20.32 the extent that credit is not available under this subdivision, as long as the reinsurance 20.33

qualifies for credit under any other applicable provision of law. Nothing in this subdivision shall authorize an assuming insurer to withdraw or reduce the security provided under any reinsurance agreement, except as permitted by the terms of the agreement. Nothing in this subdivision shall limit, or in any way alter, the capacity of parties to any reinsurance agreement to renegotiate the agreement.

21.6 **EFFECTIVE DATE.** This section is effective January 1, 2022, and applies to reinsurance contracts entered into or renewed on or after that date.

- Sec. 3. Minnesota Statutes 2020, section 60A.0921, subdivision 2, is amended to read:
 - Subd. 2. **Certification procedure.** (a) The commissioner shall post notice on the department's website promptly upon receipt of any application for certification, including instructions on how members of the public may respond to the application. The commissioner may not take final action on the application until at least 30 days after posting the notice.
 - (b) The commissioner shall issue written notice to an assuming insurer that has applied and been approved as a certified reinsurer. The notice must include the rating assigned the certified reinsurer in accordance with subdivision 1. The commissioner shall publish a list of all certified reinsurers and their ratings.
- (c) In order to be eligible for certification, the assuming insurer must:
- 21.18 (1) be domiciled and licensed to transact insurance or reinsurance in a qualified jurisdiction, as determined by the commissioner under subdivision 3;
 - (2) maintain capital and surplus, or its equivalent, of no less than \$250,000,000 calculated in accordance with paragraph (d), clause (8). This requirement may also be satisfied by an association including incorporated and individual unincorporated underwriters having minimum capital and surplus equivalents net of liabilities of at least \$250,000,000 and a central fund containing a balance of at least \$250,000,000;
 - (3) maintain financial strength ratings from two or more rating agencies acceptable to the commissioner. These ratings shall be based on interactive communication between the rating agency and the assuming insurer and shall not be based solely on publicly available information. These financial strength ratings shall be one factor used by the commissioner in determining the rating that is assigned to the assuming insurer. Acceptable rating agencies include the following:

Factors that may be considered as part of the evaluation process include, but are not limited to:

Minnesota Statutes 2020, section 256B.0625, subdivision 17, is amended to read: 80.19 Subd. 17. Transportation costs. 81.5	subdivision 1, paragraph (h).
81.6	(c) Medical assistance covers nonemergency medical transportation provided by

81.8	programs. All nonemergency medical transportation providers must comply with the
81.9	operating standards for special transportation service as defined in sections 174.29 to 174.30
81.10	and Minnesota Rules, chapter 8840, and all drivers must be individually enrolled with the
81.11	commissioner and reported on the claim as the individual who provided the service. All
81.12	nonemergency medical transportation providers shall bill for nonemergency medical
81.13	transportation services in accordance with Minnesota health care programs criteria. Publicly
81.14	operated transit systems, volunteers, and not-for-hire vehicles are exempt from the
81.15	requirements outlined in this paragraph.
81.16	(d) An organization may be terminated, denied, or suspended from enrollment if:
81.17	(1) the provider has not initiated background studies on the individuals specified in
81.18	section 174.30, subdivision 10, paragraph (a), clauses (1) to (3); or
81.19	(2) the provider has initiated background studies on the individuals specified in section

trips, and number of trips by mode; and

(4) by July 1, 2016, in accordance with subdivision 18e, utilize a web-based single administrative structure assessment tool that meets the technical requirements established by the commissioner, reconciles trip information with claims being submitted by providers, and ensures prompt payment for nonemergency medical transportation services.

- (f) Until the commissioner implements the single administrative structure and delivery system under subdivision 18e, clients shall obtain their level-of-service certificate from the commissioner or an entity approved by the commissioner that does not dispatch rides for clients using modes of transportation under paragraph (i), clauses (4), (5), (6), and (7).
- (g) The commissioner may use an order by the recipient's attending physician, advanced practice registered nurse, or a medical or mental health professional to certify that the recipient requires nonemergency medical transportation services. Driver-assisted service includes passenger pickup at and return to the individual's residence or place of business, assistance with admittance of the individual to the medical facility, and assistance in passenger securement or in securing of wheelchairs, child seats, or stretchers in the vehicle.

Nonemergency medical transportation providers must take clients to the health care provider using the most direct route, and must not exceed 30 miles for a trip to a primary care provider or 60 miles for a trip to a specialty care provider, unless the client receives authorization from the local agency.

Nonemergency medical transportation providers may not bill for separate base rates for the continuation of a trip beyond the original destination. Nonemergency medical transportation providers must maintain trip logs, which include pickup and drop-off times, signed by the medical provider or client, whichever is deemed most appropriate, attesting to mileage traveled to obtain covered medical services. Clients requesting client mileage reimbursement must sign the trip log attesting mileage traveled to obtain covered medical services.

- (h) The administrative agency shall use the level of service process established by the commissioner in consultation with the Nonemergency Medical Transportation Advisory Committee to determine the client's most appropriate mode of transportation. If public transit or a certified transportation provider is not available to provide the appropriate service mode for the client, the client may receive a onetime service upgrade.
- (i) The covered modes of transportation are:

- 94.7 (4) borrow money and issue its bonds, debentures, notes, or other evidence of indebtedness;
- 94.9 (5) mortgage, pledge, or otherwise hypothecate its assets as may be necessary;
- 94.10 (6) invest its resources;
- 94.11 (7) deposit money in state and national banks and trust companies authorized to receive 94.12 deposits; and
- 94.13 (8) exercise all other powers and authorities granted to cooperatives.
 - (b) A cooperative organized to provide rural electric power may enter agreements and contracts with other electric power cooperatives or with a cooperative constituted of electric power cooperatives to share losses and risk of losses to their transmission and distribution lines, transformers, substations, and related appurtenances from storm, sleet, hail, tornado, cyclone, hurricane, or windstorm. An agreement or contract or a cooperative formed to share losses under this paragraph is not subject to the laws of this state relating to insurance and insurance companies.
 - (c) An electric cooperative, an affiliate of the cooperative formed to provide broadband, or another entity pursuant to an agreement with the cooperative or the cooperative's affiliate, may use the cooperative, affiliate, or entity's existing or subsequently acquired electric transmission or distribution easements for broadband infrastructure and to provide broadband service, which may include an agreement to lease fiber capacity. To exercise rights granted under this paragraph, the cooperative must provide to the property owner on which the easement is located two written notices, at least two months apart, that the cooperative intends to use the easement for broadband purposes. The use of the easement for broadband services vests and runs with the land beginning six months after the first notice is provided under paragraph (d) unless a court action challenging the use of the easement for broadband purposes has been filed before that time by the property owner, as provided under paragraph

(e). The cooperative must also file evidence of the notices for recording with the county 95.1 95.2 recorder. (d) The cooperative's notices under paragraph (c) must be sent by first class mail to the 95.3 last known address of the owner of the property on which the easement is located or by 95.4 95.5 printed insertion in the property owner's utility bill. The notice must include the following: (1) the name and mailing address of the cooperative; 95.6 95.7 (2) a narrative describing the nature and purpose of the intended easement use; (3) a description of any trenching or other underground work expected to result from 95.8 the intended use, including the anticipated time frame for the work; 95.9 (4) a phone number of a cooperative employee to contact regarding the easement; and 95.10 (5) the following statement, in bold red lettering: "It is important to make any challenge 95.11 by the deadline to preserve any legal rights you may have." 95.12 95.13 (e) Within six months after receiving notice under paragraph (d), a property owner may commence an action seeking to recover damages for an electric cooperative's use of an 95.14 electric transmission or distribution easement for broadband service purposes. If the claim 95.15 for damages is under \$15,000, the claim may be brought in conciliation court. 95.16 Notwithstanding any other law to the contrary, the procedures and substantive matters set 95.17 forth in this subdivision govern an action under this paragraph and are the exclusive means 95.18 to bring a claim for compensation with respect to a notice of intent to use a cooperative 95.19 transmission or distribution easement for broadband purposes. To commence an action 95.20 under this paragraph, the property owner must serve a complaint upon the electric cooperative 95.21 as in a civil action and file the complaint with the district court for the county in which the 95.22 easement is located. The complaint must state whether the property owner (1) is challenging 95.23 95.24 the electric cooperative's right to use the easement for broadband services or infrastructure 95.25 as authorized under paragraph (c), (2) is seeking damages as provided under paragraph (f), or (3) both. 95.26 95.27 (f) If the property owner is seeking damages, the electric cooperative may, at any time after answering the complaint: (1) deposit with the court administrator an amount equal to 95.28 the cooperative's estimate of damages, which must be no less than \$1; and (2) after making 95.29 the deposit, use the electric transmission or service line easements for broadband purposes, 95.30 conditioned on an obligation to pay the amount of damages determined by the court. If the 95.31 property owner is challenging the electric cooperative's right to use the easement for 95.32 broadband services or infrastructure as authorized under paragraph (c), after the electric 95.33

cooperative answers the complaint the district court must promptly hold a hearing on the property owner's challenge. If the district court denies the property owner's challenge, the electric cooperative may proceed to make a deposit and make use of the easement for broadband service purposes, as provided under clause (2).

- (g) In an action involving a property owner's claim for damages, the landowner has the burden to prove the existence and amount of any net reduction in the fair market value of the property, considering the existence, installation, construction, maintenance, modification, operation, repair, replacement, or removal of broadband infrastructure in the easement, as well as any benefit to the property from access to broadband service. Consequential or special damages must not be awarded. Evidence of revenue, profits, fees, income, or similar benefits to the electric cooperative, the cooperative's affiliate, or a third party is inadmissible. Any fees or costs incurred as a result of an action under this subdivision must be paid by the party that incurred the fees or costs, except that the cooperative is responsible for the landowner attorney fees if the final judgment or award of damages is more than 140 percent of the cooperative's damage deposit.
- (h) Nothing in this section limits in any way an electric cooperative's existing easement rights, including but not limited to rights an electric cooperative has or may acquire to transmit communications for electric system operations or otherwise.
- (i) The placement of broadband infrastructure for use to provide broadband service under paragraphs (c) to (h) in any portion of an electric transmission or distribution easement located in the public right-of-way is subject to local government permitting and right-of-way management authority under section 237.163, and the placement must be coordinated with the relevant local government unit to minimize potential future relocations. The cooperative must notify a local government unit prior to placing infrastructure for broadband service in an easement that is in or adjacent to the local government unit's public right-of-way.
 - (j) For purposes of this subdivision:
- 96.27 (1) "broadband infrastructure" has the meaning given in section 116J.394; and
- 96.28 (2) "broadband service" means broadband infrastructure and any services provided over 96.29 the infrastructure that offer advanced telecommunications capability and Internet access.

113.26	(b) Prior to developing and filing a proposal, the nonprofit must submit to the
113.27	commissioner of commerce a notice of intent to file a proposal under this subdivision. The
113.28	notice of intent must describe the nonprofit's qualifications and eligibility to file a proposal
113.29	under this subdivision. The commissioner must review the notice of intent and issue a

determination of eligibility within 30 days if the commissioner determines the nonprofit

114.1	(c) Upon receiving the determination by the commissioner under paragraph (b), the
114.2	nonprofit organization must engage with interested stakeholders on at least the following
114.3	attributes required of a program proposal under this subdivision:
114.4	(1) a proposed budget and operational guidelines for the accelerator;
114.5	(2) a proposed energy savings attribution, evaluation, and allocation methodology that
114.6	includes a method for calculating net benefits from activities under the program. Energy
114.7	savings and net benefits from activities under the program must be allocated to participating
114.8	utilities and be considered when determining cost-effectiveness of achieved energy savings
114.9	and related incentives;
114.10	(3) a process to ensure that the technologies that are selected for the program benefit
114.11	electric and natural gas utility customers in proportion to the funds each utility sector
114.12	contributes to the program and address residential, commercial, and industrial building
114.13	energy use; and
114.14	(4) a process for identifying and tracking performance metrics for each technology
114.15	selected against which progress can be measured, including one or more methods for
114.16	evaluating cost-effectiveness.
114.17	(d) No earlier than 180 days from the date of the commissioner's eligibility determination
114.18	under paragraph (b), the nonprofit may file a program proposal under this subdivision. The
114.19	filing must describe how the proposal addresses each of the required attributes listed in
114.20	paragraph (c), clauses (1) to (4), and how the proposal addresses the recommendations and
114.21	concerns identified in the stakeholder engagement process required under paragraph (c).
114.22	(e) Within ten days of receiving the proposal, the commissioner must provide public
114.23	notice of the proposal and solicit feedback from interested parties for a period of not less
114.24	than ten business days.
114.25	(f) Within 90 days of the filing of the proposal, the commissioner must approve, modify,
114.26	or reject a proposal under this subdivision. In making a determination, the commissioner
114.27	must consider public comments, the expected costs and benefits of the program from the
114.28	perspectives of ratepayers, the participating utilities, and society, and the expected costs
114.29	and benefits relative to other energy conservation programming authorized under this section.
114.30	(g) The initial program term may be up to five years. At the request of the nonprofit, the
114.31	commissioner may renew a program approved under paragraph (d) for up to five years at
114.32	a time. The nonprofit must submit to the commissioner a request to renew the program no
114 33	later than 180 days prior to the end of the term of the program approved or renewed under

this subdivision. When making a request to renew and determination on renewal, the nonprofit and commissioner must follow the process established under this subdivision, except that a qualified nonprofit is not required to seek eligibility under paragraph (b).

- (h) Upon approval, each public utility with over 30,000 customers must participate in 115.4 115.5 the program and contribute to the approved budget of the program by depositing annually 115.6 in the energy and conservation account under subdivision 2a an amount that is proportional to the utility's gross operating revenue from sales of gas or electric service in Minnesota, 115.7 115.8 excluding revenues from large customer facilities exempted under subdivision 1a. A participating utility must not be required to contribute more than the following percentages 115.9 of the utility's spending approved by the commission in the plan filed under subdivision 2: 115.10 (1) two percent in the program's initial two years; (2) 3.5 percent in the program's third and 115.11 fourth years; and (3) five percent thereafter. Other utilities may elect to participate in the 115.12 accelerator program. Costs incurred by a public utility under this subdivision are recoverable 115.13 under subdivision 2b as an assessment to the energy and conservation account. Amounts 115.14 provided to the account under this subdivision are not subject to the cap on assessments in 115.15 section 216B.62. The commissioner may make expenditures from the account for the 115.16 purposes of this subdivision, including amounts necessary to cover administrative costs 115.17 incurred by the department under this subdivision. Costs for research projects under this 115.18 subdivision that the commissioner determines may be duplicative to projects that would be eligible for funding under subdivision 1e, paragraph (a), may be deducted from the 115.20 assessment under subdivision 1e for utilities participating in the accelerator. 115.21
 - (i) The commissioner must not approve more than one program to be implemented or in operation at any given time under this subdivision.
 - (j) At least once during the term of a program that is approved or renewed, the commissioner must contract for an independent review of the program to determine if it meets the objectives and requirements of this section and any criteria established by the department as a condition of approval. The review may not be conducted by an entity or person that acted as a stakeholder or interested party, or otherwise participated in the program preparation, filing, or review process. Upon completion, the reviewer must prepare a report detailing findings and recommendations, and the commissioner must transmit a copy of the report to the chairs and ranking minority members of the house of representatives and senate committees with jurisdiction over energy policy. Money required to conduct the review and prepare the report must be deducted from the total contribution amount under paragraph (h).

Sec. 18. Minnesota Statutes 2020, section 216B.2412, subdivision 3, is amended to read: Subd. 3. **Pilot programs.** The commission shall allow one or more rate-regulated utilities to participate in a pilot program to assess the merits of a rate-decoupling strategy to promote energy efficiency and conservation. Each pilot program must utilize the criteria and standards established in subdivision 2 and be designed to determine whether a rate-decoupling strategy achieves energy savings. On or before a date established by the commission, the commission shall require electric and gas utilities that intend to implement a decoupling program to file a decoupling pilot plan, which shall be approved or approved as modified by the commission. A pilot program may not exceed three years in length. Any extension beyond three years can only be approved in a general rate case, unless that decoupling program was previously 116.10 approved as part of a general rate case. The commission shall report on the programs annually 116.11 to the chairs of the house of representatives and senate committees with primary jurisdiction over energy policy. 116.13

123.13	by the commission; and
123.14	(7) modifications to elements of the plan proposed by the utility.
123.15	(g) When evaluating a utility's annual report, the commission may:

123.17	modifications;
123.18	(2) require the utility to file a new or modified pilot program or plan; or
123.19	(3) disapprove the continuation of a pilot program or plan.
123.20	(h) An innovation plan has a term of five years. A subsequent innovation plan must be
123.21	filed no later than four years after the previous plan was approved by the commission so
123.22	that, if approved, the new plan takes effect immediately upon expiration of the previous
123.23	plan.
123.24	(i) For purposes of this section and the commission's lifecycle carbon accounting
123.25	framework and cost-benefit test for innovative resources under section 216B.2428, any
123.26	required analysis of lifecycle greenhouse gas emissions reductions or avoidance, or lifecycle

124.7	emissions factors, default values, or engineering estimates from a publicly accessible source
124.8	accepted by a federal or state government agency, provided that the emissions factors,
124.9	default values, or engineering estimates can be demonstrated to the satisfaction of the
124.10	commission to produce a reasonable estimate of greenhouse gas emissions reductions,
124.11	avoidance, or intensity.
124.12	(j) Strategic electrification implemented in a plan approved by the commission under
124.13	this section is not eligible for a financial incentive under section 216B.241, subdivision 2c.
124.14	Electric end-use equipment installed under a plan approved by the commission under this
124.15	section is the exclusive property of the building owner.
124.16	Subd. 3. Limitations on utility customer costs. (a) Except as provided in paragraph
124.17	(b), the first innovation plan submitted to the commission by a utility must not propose, and

124.19	(1) 1.75 percent of the utility's gross operating revenues from natural gas service provided
124.20	in Minnesota at the time of plan filing; or
124.21	(2) \$20 per nonexempt customer, based on the proposed annual total incremental costs

124.23	(b) The commission may approve additional annual costs up to the lesser of:
124.24	(1) an additional 0.25 percent of the utility's gross operating revenues from service
124.25	provided in Minnesota at the time of plan filing; or
124.26	(2) \$5 per nonexempt customer, based on the proposed annual total incremental costs
124.27	for each year of the plan divided by the total number of nonexempt utility customers of
124.28	incremental costs.
124.29	The commission may approve the additional costs under this paragraph only if the
124.30	commission determines that the additional costs are associated exclusively with the purchase
124.31	of renewable natural gas produced from:
124 32	(i) food waste diverted from a landfill:

125.1	(ii) a municipal wastewater treatment system; or
125.2	(iii) an organic mixture that includes at least 15 percent, by volume, sustainably harvested
125.3	native prairie grasses or locally appropriate cover crops, as determined by a local soil and
125.4	water conservation district or the United States Department of Agriculture, Natural Resources
125.5	Conservation Service.
125.6	(c) Unless the commission determines that paragraph (d) applies, if the commission
125.7	determines that the utility has successfully achieved the cost-effectiveness objectives
125.8	established in the utility's most recently approved innovation plan, the next subsequent plan
125.9	filed by the utility under this section is subject to the provisions of paragraphs (a) and (b),
125.10	except that:
125.11	(1) the cap on total incremental costs in paragraph (a) with respect to the second plan is
125.12	the lesser of:
125.13	(i) 2.75 percent of the utility's gross operating revenues from natural gas service in
125.14	Minnesota at the time of the plan's filing; or
125.15	(ii) \$35 per nonexempt customer; and
125.16	(2) the cap on additional costs in paragraph (b) is the lesser of:
125.17	(i) an additional 0.75 percent of the utility's gross operating revenues from natural gas
125.18	service in Minnesota at the time of the plan's filing; or
125.19	(ii) \$10 per nonexempt customer.
125.20	(d) If the commission determines that the utility has successfully achieved the
125.21	cost-effectiveness objectives established in two of the same utility's previously approved
125.22	innovation plans, all subsequent plans filed by the utility under this section are subject to
125.23	paragraphs (a) and (b), except that:
125.24	(1) the cap on total incremental costs in paragraph (a) with respect to the third or
125.25	subsequent plan is the lesser of:

125.27	Minnesota at the time of the plan's filing; or
125.28	(ii) \$50 per nonexempt customer; and
125.29	(2) the cap on additional costs in paragraph (b) is the lesser of:
125.30	(i) an additional 1.5 percent of the utility's gross operating revenues from natural gas
125.31	service in Minnesota at the time of the plan's filing; or

126.1	(ii) \$20 per nonexempt customer.
126.2	(e) For purposes of paragraphs (a) to (d), the limits on annual total incremental costs
126.3	must be calculated at the time the innovation plan is filed as the average of the utility's
126.4	forecasted total incremental costs over the five-year term of the plan.
126.5	(f) A large customer facility that the commissioner of commerce has exempted from a
126.6	utility's conservation improvement program under section 216B.241, subdivision 1a,
126.7	paragraph (b), is exempt from the utility's innovation plan offerings and must not be charged
126.8	any costs incurred to implement an approved innovation plan unless the large customer
126.9	facility files a request with the commissioner to be included in a utility's innovation plan.
126.10	The commission may prohibit large customer facilities exempt from innovation plan costs
126.11	from participating in innovation plans.
126.12	(g) A utility filing an innovation plan may include annual spending and investments on
126.13	research and development of up to ten percent of the proposed total incremental costs related
126.14	to innovative plans, subject to the limitations in paragraphs (a) to (e).
126.15	(h) For purposes of this subdivision, gross operating revenues do not include revenues
126.16	from large customer facilities exempt from innovation plan costs.
126.17	Subd. 4. Innovative resources procured outside of an innovation plan. (a) Without
126.18	filing an innovation plan, a natural gas utility may propose and the commission may approve
126.19	cost recovery for:
126.20	(1) innovative resources acquired to satisfy a commission-approved green tariff program
126.21	that allows customers to choose to meet a portion of the customers' energy needs through
126.22	innovative resources; or
126.23	(2) utility expenditures for innovative resources procured at a cost that is within five
126.24	percent of the average of Ventura and Demarc index prices for natural gas produced from
126.25	conventional geologic sources at the time of the transaction per unit of natural gas that the
126.26	innovative resource displaces.
126.27	(b) An approved green tariff program must include provisions to ensure that reasonable
126.28	systems are used to track and verify the environmental attributes of innovative resources
126.29	included in the program, taking into account any available third-party tracking or verification
126.30	systems.
126.31	(c) For the purposes of this subdivision, "Ventura and Demarc index prices" means the

126.33

Ventura trading hub in Hancock County, Iowa, and its demarcation point in Clifton, Kansas.

126.32 daily index price of wholesale natural gas sold at the Northern Natural Gas Company's

Subd. 5. Power-to-ammonia. When determining whether to approve a power-to-ammonia 127.1 pilot program as part of an innovative plan, the commission must consider: 127.2 127.3 (1) the risk of exposing any person to unhealthy concentrations of ammonia; (2) the risk that any home or business might be affected by ammonia odors; 127.4 127.5 (3) whether the greenhouse gas emissions addressed by the proposed power-to-ammonia project could be more efficiently addressed using power-to-hydrogen; and 127.6 127.7 (4) whether the power-to-ammonia project achieves lifecycle greenhouse gas emissions reductions in the agricultural sector more effectively than power-to-hydrogen. 127.8 127.9 Subd. 6. Thermal energy audits. The first innovation plan filed under this section by a utility with more than 800,000 customers must include a pilot program to provide thermal 127.10 energy audits to small- and medium-sized business in order to identify opportunities to 127.11 reduce or avoid greenhouse gas emissions from natural gas use. The pilot program must 127.12 provide incentives for businesses to implement recommendations made by the audit. The 127.13 utility must develop criteria to identify businesses that achieve significant emissions 127.14 reductions by implementing audit recommendations and must recognize the businesses as 127.15 thermal energy leaders. 127.16 Subd. 7. **Innovative resources for certain industrial processes.** The first innovation 127.17 plan filed under this section by a utility with more than 800,000 customers must include a 127.18 pilot program to provide innovative resources to industrial facilities whose manufacturing processes, for technical reasons, are not amenable to electrification. A large customer facility 127.20 exempt from innovation plan offerings under subdivision 3, paragraph (f), is not eligible to 127.21 participate in the pilot program under this subdivision. 127.22 127.23 Subd. 8. Electric cold climate air-source heat pumps. (a) The first innovation plan filed under this section by a utility with more than 800,000 customers must include a pilot 127.24 program that facilitates deep energy retrofits and the installation of cold climate electric 127.25 air-source heat pumps in existing residential homes that have natural gas heating systems. 127.26 127.27 (b) For purposes of this subdivision, "deep energy retrofit" means the installation of any measure or combination of measures, including air sealing and addressing thermal bridges, 127.28 that under normal weather and operating conditions can reasonably be expected to reduce 127.29 127.30 a building's calculated design load to ten or fewer British Thermal Units per hour per square foot of conditioned floor area. Deep energy retrofit does not include the installation of 127.31 photovoltaic electric generation equipment, but may include the installation of a solar thermal 127.32 energy project. 127.33

128.1	Subd. 9. District energy. The first innovation plan filed under this section by a utility
128.2	with more than 800,000 customers must include a pilot program to facilitate the development,
128.3	expansion, or modification of district energy systems in Minnesota. This subdivision does
128.4	not require the utility to propose, construct, maintain, or own district energy infrastructure.
128.5	Subd. 10. Throughput goal. It is the goal of the state of Minnesota that through the
128.6	Natural Gas Innovation Act and Conservation Improvement Program, utilities reduce the
128.7	overall amount of natural gas produced from conventional geologic sources delivered to
128.8	customers.
128.9	Subd. 11. Utility system report and forecasts. (a) A public utility filing an innovation
128.10	plan shall concurrently submit a report to the commission containing the following
128.11	information:
128.12	(1) the volume of methane gas emissions attributed to venting or leakage across the
128.13	utility's system, including emissions information reported to the Environmental Protection
128.14	Agency and gas leaks considered to be hazardous or nonhazardous, and a narrative description
128.15	of the utility's expectations regarding the cost and performance of the utility's leakage
128.16	reduction programs over the next five years;
128.17	(2) total system greenhouse gas emissions and greenhouse gas emissions projected to
128.18	be reduced or avoided through innovative resource investments and energy conservation
128.19	investments, and a narrative description of the costs required to achieve the reductions over
128.20	the next five years through investments in innovative resources and energy conservation;
128.21	(3) the quantity of pipe in service in the utility's natural gas network in Minnesota, by
128.22	material, size, coating, operating pressure, and decade of installation, based on utility
128.23	information reported to the United States Department of Transportation;
128.24	(4) a narrative description of other significant equipment owned and operated by the
128.25	utility through which gas is transported or stored, including regulator stations and storage
128.26	facilities, a discussion of the function of the equipment, how the equipment is maintained,
128.27	and utility efforts to prevent leaks from the equipment;
128.28	(5) a five-year forecast of fuel prices and anticipated purchases including, as available,
128.29	natural gas produced from conventional geologic sources, renewable natural gas, and
128.30	alternative fuels;
128.31	(6) a five-year forecast of potential capital investments by the utility in existing
128.32	infrastructure and new infrastructure for natural gas produced from conventional geologic
128.33	sources and for innovative resources; and

129.1	(7) an inventory of the utility's current financial incentive programs for natural gas,
129.2	including rebates and incentives offered for new and existing buildings and a description
129.3	of the utility's projected changes in incentives the utility is likely to implement over the next
129.4	five years.
129.5	(b) Information filed under this subdivision is intended to be used by the commission
129.6	to evaluate a utility's innovation plan in the context of the utility's other planned investments
129.7	and activities with respect to natural gas produced from conventional geologic sources.
129.8	<u>Information filed under this subdivision must not be used by the commission to set or limit</u>
129.9	utility rate recovery.
129.10	EFFECTIVE DATE. This section is effective June 1, 2022.
129.11	Sec. 21. [216B.2428] LIFECYCLE GREENHOUSE GAS EMISSIONS
129.12	ACCOUNTING FRAMEWORK; COST-BENEFIT TEST FOR INNOVATIVE
129.13	RESOURCES.
129.14	By June 1, 2022, the commission shall, by order, issue frameworks the commission must
129.15	use to calculate lifecycle greenhouse gas emissions intensities of each innovative resource,
129.16	as follows:
129.17	(1) a general framework to compare the lifecycle greenhouse gas emissions intensities
129.18	of power-to-hydrogen, strategic electrification, renewable natural gas, district energy, energy
129.19	efficiency, biogas, carbon capture, and power-to-ammonia; and
129.20	(2) a cost-benefit analytic framework to be applied to innovative resources and innovation
129.21	plans filed under section 216B.2427 that the commission must use to compare the
129.22	cost-effectiveness of those resources and plans. This analytic framework must take into
129.23	account:
129.24	(i) the total incremental cost of the plan or resource and the lifecycle greenhouse gas
129.25	emissions avoided or reduced by the innovative resource or plan, using the framework
129.26	developed under clause (1);
129.27	(ii) additional economic costs and benefits, programmatic costs and benefits, additional
129.28	environmental costs and benefits, and other costs or benefits that may be expected under a
129.29	plan; and
129.30	(iii) baseline cost-effectiveness criteria against which an innovation plan should be
129.31	compared. When establishing baseline criteria, the commission must take into account
129.32	options available to reduce lifecycle greenhouse gas emissions from natural gas end uses
129.33	and the goals in section 216C.05, subdivision 2, clause (3), and section 216H.02, subdivision

1. To the maximum reasonable extent, the cost-benefit framework must be consistent with environmental cost values established under section 216B.2422, subdivision 3, and other calculations of the social value of greenhouse gas emissions reductions used by the commission. The commission may update frameworks established under this section as necessary.

EFFECTIVE DATE. This section is effective the day following final enactment.

138.24	(1) equipping an LWECS with a light-mitigating technology is technically infeasible;			
138.25	(2) equipping an LWECS with a light-mitigating technology imposes a significant			
138.26	financial burden on the permittee; or			
138.27	(3) a vendor approved by the Federal Aviation Administration cannot deliver a
