

House File 16

This bill would prohibit local governments from passing ordinances or policies that limit their involvement with federal immigration enforcement. I am absolutely against this bill because it will ruin the trust between our police departments and our local immigrant community. Our immigrant community needs our support not cooperation with this punitive policy. We at St. Joan of Arc in South Mpls. have studied our immigration policies extensively. This House File 16 is wrong for the immigrant community and our business community.

Sincerely,

Margaret Hinton
