

Subject Distribution of property tax payments

Authors Marquart

Analyst Jared Swanson

Date April 17, 2020

Summary

Allows counties to distribute any property tax payments received after the first-half settlement day in May, for taxes payable in 2020 only. Counties would be allowed to choose a second settlement date for first-half payments and would be required to distribute the funds to local jurisdictions and to the state in the same manner in which they distribute first-half payments. Counties choosing to do this would also be required to file the same state auditor reports that are required for distribution of first-half payments.
