

Subject Minnesota Aquatic Invasive Species Research Center Grant

Authors Hansen, R. and Others

Analyst Janelle Taylor

Date March 6, 2024

Summary

This bill would require the grant contract for a grant to the University of Minnesota's Minnesota Aquatic Invasive Species Research Center (MAISRC) funded by previous appropriations from the general fund and heritage enhancement account to have requirements consistent with a master agreement signed by the University of Minnesota and the commissioner of natural resources on June 29, 2023. It would also exempt the grant from a provision applicable to money in the heritage enhancement account that requires at least 87 percent of money be allocated for field operations.
