SUBJECT: Local Impact Note Requested for SF34 – Earned sick and safe time provision and appropriation (HF19 companion bill in House of Representatives)

The Legislative Budget Office (LBO) received a local impact note request for SF34. The purpose of the local impact note is to estimate the fiscal impact that a political subdivision would incur under the proposed legislation. The request was made specifically for the school districts that are located wholly or partially within the boundaries of Senate District 11.

The request complies with Minnesota Statute 3.987. The LBO will respond to this request by:

1. Contacting the authors, state agencies, fiscal staff, local government associations, individual local units, and others as necessary to determine what, if any, fiscal impact this bill would have on local governments.
2. Developing and implementing an appropriate method for estimating local fiscal impacts.
3. Delivering the fiscal impact estimates to you and the authors in a local impact note. The local impact note will include a description of all relevant issues, assumptions, and calculations.

As soon as the local impact note has been completed, we will deliver a copy to you. We will complete the local impact note as quickly as possible. If there is any major delay in completing this note, we will inform your staff.

If you or your staff have any questions about the local impact note process, please do not hesitate to contact me at Christian.Larson@lbo.mn.gov or (651) 284-6436.
