

Subject Teacher Preparation Time

Authors Edelson and Others

Analyst Cristina Parra

Date February 21, 2023

Summary

This bill establishes due process revenue to provide time for teachers to complete due process forms and procedures. School districts and charter schools where teachers are unionized are eligible for the revenue. The revenue for fiscal year 2024 is equal to \$116 times the adjusted pupil units for a district or charter school; and \$33 times the adjusted pupil units for an intermediate school district or other cooperative unit. For fiscal year 2025 and later, the revenue is equal to \$65 times the adjusted pupil units for the current fiscal year; and \$13 times the adjusted pupil units for an intermediate school district or other cooperative unit. Requires a district and teacher's union to negotiate the use of due process revenue, and provides a default for how the revenue must be used if the parties cannot agree.
