

Feb 25, 2019

Minnesota Well Owners Organization is in support of HF 1316 that removes the sunset for funding for the Legislative Water Commission. The LWC provides essential coordination and information about Minnesota's water resources and how we can best manage this precious resource. The nonpartisan Water Commission is a critical asset for Minnesota and the sunset should be removed. MNWOO believes that the LWC should continue providing their valuable service to Minnesota.

Thank you
