Pursuant to MINN. STAT. 3.197, the cost of preparing this report was approximately \$900.00.

In accordance with the Americans with Disabilities Act, this information is available in alternative forms of communication upon request by calling 651-201-6000. TTY users can call the Minnesota Relay Service at 711. The MDA is an equal opportunity employer and provider.

Executive Summary

Through the first 3 years of the program, over \$6.8 million worth of tax credits have been claimed by asset owners across the state and over \$1.2 million worth of educational credits have been claimed by beginning farmers. Going into 2022, there is approximately \$19 million available for tax credits.

Introduction

This report will present the first 3 years' worth of tax credit usage under the program as well as an estimate of the funds that remain available. The tax credit usage for 2021 will not be available until after the closing of the 2021 tax filing season at which point this report can be updated.

Background

On May 30, 2017, Governor Mark Dayton signed into law a Tax Credit for Minnesota farmers. This law provides an incentive in the form of tax credits to asset owners for the rent or sale of farmland or a variety of farm assets to beginning farmers as well as an educational tax credit to beginning farmers to offset educational expenses. The program sunsets at the end of calendar year 2023.

The Minnesota Department of Agriculture's Rural Finance Authority (RFA) administers this \$36 million dollar program that started with a base of \$5 million dollars in year one and adds an additional \$6 million in available funds each year through calendar year 2023.

General eligibility for beginning farmers is that they are Minnesota farmers who have entered into farming within the last 10 years and have a lower net worth with a limit tied to the Minnesota Beginning Farmer Loan Program. The beginning farmer must also be enrolled in or have completed farm financial management courses.

General eligibility for agricultural asset owners is that then not be directly related to either the beginning farmer and their spouse (aunt/uncle or further removed). The asset owner is entitled to a credit as follows:

- 5% of the lesser of the sale price or fair market value of the agricultural asset up to a maximum of \$32,000;
- 10% of the gross rental income in each of the 1st, 2nd, and 3rd years of the rental agreement, up to a maximum of \$7,000 per year, or
- 15% of the cash equivalent of the gross rental income in each of the 1st, 2nd, and 3rd years of a share rent agreement, up to a maximum of \$10,000 per year.

The agricultural asset owner can claim credits in one of the above categories in a given tax year up to the maximums stated.
