Location of ECHO attendees by county

The **counties shaded red** represent the locations of the 1053 individuals, from 202 clinics, who have participated in Project ECHO.

“ECHO has been a tremendous opportunity for those of us in out-state Minnesota. It is extremely convenient without any involved travel.”

Kathy Nevins, DNP, NP-C
Essentia Health, Park Rapids

“Project ECHO has played a large role in helping us establish our MAT clinic. ECHO allowed us to access state-wide addiction medicine experts. The materials on the website served as the basis for our protocols and agreements. They gave me a chance to receive support and from a (virtual) room-full of people navigating the same clinical and social challenges.”

Emily Carroll, RN, CNP
Director of Clinical Care
HealthFinders Collaborative
Northfield, MN

“ECHO has been a life-line for us. I can confidently say that our clinic offers the most up-to-date, evidence-based practices in the field of addiction medicine. When I have a tough case, I have several experts I can reach out to and resources I can review.”

Sara Persinger, DNP, APRN, CNP
Olmsted Medical Center
Rochester, MN
