

Dear Mr. Gelbman,

I am writing in support of HF3499. MN legislature needs to immediately release COVID-19 related federal money so OSS can responsibly prepare to keep MN voters safe. Taking preventative action now will save Minnesota taxpayers money, and lives, by reducing unnecessary exposure to MN voters at the polls. Our State Representatives discussed on the floor yesterday the need for a robust mail-in ballot system for themselves. MN citizens deserve the same.

We have to be proactive on this. MN leads in voter turnout in nearly every election, and we must continue.
