Honorable Senator Pappas & Representative Pinto:

Minnesota School Boards Association would like to express support for SF337 / HF424 that would conform the state and federal definitions of directory information.

This legislation would allow school districts to share student directory information with other parties such as libraries. Under the current law, school districts would continue to provide a proper notice to students and parents.

We believe this bill would provide seamless services to students through enhanced collaboration.

Thank you Senator Pappas and Representative Pinto for bringing forward the proposal to conform Minnesota directory information law with the federal regulations.

Sincerely,

Grace Keliher  
Minnesota School Boards Association
