Weighted Average City											45.3%	1,079	119.95		
Weighted Average County											43.4%	1,271	46.17		

[1] Excluding bond costs.

[2] Includes county tax imposed under the transportation and transit tax general authority.

[3] The tax only raises about \$75 million in 25 years so city is planning on reducing projects further based on community input.

[4] Split city- part is subject to a .25% county tax and part is subject to a .5% county tax.

[4] City is part of the Central Cities joint powers agreement that imposes a 0.5% tax in 5 cities.

[5] Amended resolution with a lower rate and lower amount to be raised.

[6] This rate accounts for the effects of fiscal disparities and disparity reduction aid.
