

# Most MN airports owned by small towns

| Ownership   | Number of Airports | Percent of State System |
|---|--------------------|-------------------------|
| State   | 1                  | < 1%                    |
| County  | 7                  | 5%                      |
| Airport Authority*  | 23                 | 17%                     |
| City with Population Greater than 5,000   | 30                 | 22%                     |
| City with Population Less than 5,000<br>(41 eligible for federal funds)                     | 74                 | 55%                     |
| City with Population Less than 1,000<br>(7 eligible for federal funds), includes 1 township | 26                 | 19%                     |

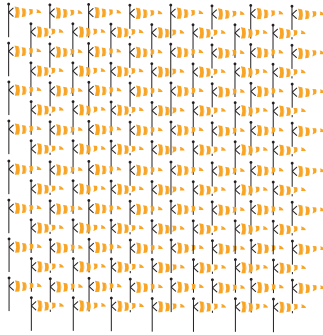

\* Airport authorities are treated as municipalities and have taxing authority. City-County joint powers agreements, and Metropolitan Airports Commission (MAC).
