## **Affects of Minnesota Dnr Movement shutdown for whitetail deer**

Reed Sander 2-15-22

- 2S Whitetail Ranch has lost at least 50 hunters from the shutdown of deer movement by the Minnesota dnr and board of animal health.
- Most of these hunters would have harvested more than 1 animal each
- We have now lost hunters that would've hunted with us for years to come as 90-95% of our customers are return customers.
- We have also lost MOST of our deer farmers that we buy deer from because they don't want to commit to selling deer to us because its a if/when the movements get shutdown every year
