Overview

House File 3417 requires waste composition studies to be conducted biennially by 20 percent of waste disposal facilities in several categories: mixed municipal solid waste and industrial solid waste landfills; material recovery facilities; transfer stations; and others.

Summary

Section	Description
---------	-------------

- | | |
|---|--|
| 1 | <p>[115A.412] Waste composition; information required.</p> <p>Subd. 1. Study required. Requires a waste composition study to be conducted every two years by 20 percent of the owners/operators of several different categories of waste disposal facilities, to be selected by the commissioner of the Pollution Control Agency (PCA), including landfills containing mixed municipal solid waste, industrial waste, and demolition debris; material recovery facilities; transfer stations; and other facilities identified by the commissioner. Costs are to be borne by the facilities.</p> <p>Subd. 2. Study requirements. The commissioner must determine sampling methods and the material categories used in the studies.</p> <p>Subd. 3. Report. Requires owner/operators of facilities studied to submit raw data to the commissioner within six months of completion of the study.</p> <p>Subd. 4. Compilation. Requires the commissioner to compile all studies and make them available to the public.</p> <p>Subd. 5. Additional studies; information. Authorizes the commissioner to conduct additional waste composition studies.</p> |
| 2 | <p>[115A.5502] Packaging practices; preferences; goals.</p> <p>Strikes a reference to a packaging reduction goal that was to be met in 1995.</p> |

Section	Description
3	Repealer. Repeals Minnesota Statutes, section 115A.5501, which set packaging reduction goals for 1995.
