

CG105– CHIEF AUTHOR REP. HANSEN  
**MEAT PROCESSING RELOCATIONS**

- REGIONALLY, CULTURALLY SIGNIFICANT FOOD PRODUCTION BUSINESSES
- OBSOLETE FACILITIES INHIBIT GROWTH
  - Impractical to expand and meet current building code for food-grade production
  - Impossible to expand and meet zoning and land development regulations
  - Substandard infrastructures (sewer, storm, and water) – direct impacts to Mississippi River and adjacent properties
- RELOCATION WOULD ASSURE LONG-TERM ALIGNMENT WITH COMPREHENSIVE PLAN AND ZONING REGULATIONS
- NEW FACILITIES WOULD SUPPORT SUSTAINABLE BUSINESS GROWTH
- NEW FACILITIES WOULD SUPPORT MORE ENVIRONMENTALLY SENSITIVE OPERATIONS AND ENHANCE TAX BASE
