

THE POWER OF MUSIC TO HEAL OUR COMMUNITY

Creating a bold future through the healing & restorative power of music

Walker|West is engaging the community in new and important ways, and will be looking for the support of donors to help expand and deepen its impact. As Walker|West heads into its next 30 years, the organization has a plan to fund three pillars of its work:

- Celebrating Culture (establishing a new facility)
- Healing Community (expanded music education access)
- Inspiring the Future (growing capacity to serve community)

With each area of this campaign, Walker|West will acquire the means to be a community destination with state of the art tech, integrated and flexible spaces that are culturally relevant and uplifting for generations to come.

CELEBRATING CULTURE THROUGH PLACE

Walker|West will need to find a new space because our current lease agreement will end in 2023, and will not be renewed.

- Walker|West is reaching capacity with 230 students per week and serving 5,700 annual program participants. Our mission is not capped at 230 students per week; many more students can and will be served the benefits of a Walker|West education.
- Recitals and performances are consistently beyond capacity.
- Storage spaces for instruments are overflowing.
- There is no designated parking, which sometimes creates dangerous situations for students and concert-goers.

COST: 5.4M
