Overview

This bill modifies provisions relating to licensure and background studies for individuals applying for family foster setting licenses. The bill creates new disqualification criteria for individuals seeking family foster setting licensure, and allows for licensure denial and licensing action for specified non-disqualifying background study information that reflects on an applicant's ability to safely care for children. It also makes conforming changes in relevant sections of statute, and requires the commissioner of human services to establish family foster setting licensing guidelines for county and private licensing agencies.
