

Net-Zero Energy Provider by 2050

Goals that cover all the ways our customers use energy

*Spans natural gas supply, distribution and customer use

**Includes the Xcel Energy fleet; zero-carbon fuel is electricity or other clean energy

1

Net-Zero Vision for Natural Gas

25% net reduction in Greenhouse Gas (GHG) emissions by 2030

Natural Gas Suppliers

Influence natural gas suppliers

Purchase exclusively natural gas with certified low-methane emissions by 2030

Xcel Energy System

Operate the cleanest system possible

Achieve net-zero methane emissions by 2030

Customers

Offer more options and choice

New and expanded voluntary programs
