

MN Prairie Recovery Program

- - Protect
- - Restore
- - Enhance

Presented by Neal Feeken

March 9, 2022

Accomplishments: Phases 1-11

- 7,090 Acres Protected
- 1,800 Acres Restored
- 150,000+ Acres Enhanced
- 723,000 MTCO₂e

Enhancement Techniques

A photograph of a rolling landscape with hills and fields. The foreground is filled with tall, dry grasses and vibrant red wildflowers. The middle ground shows rolling hills covered in similar vegetation. The background features a line of trees under a clear, light blue sky.

In Progress

Current

A photograph of a field of yellow wildflowers, likely Black-eyed Susans, at sunset. The sun is low on the horizon, creating a warm, golden glow and long shadows. The flowers are in the foreground and middle ground, with some in sharp focus and others blurred. The sky is a mix of blue and orange.
