

Implementation update

October 2023

New resources, new responsibilities

The 2023 Legislature tasked MPCA with ambitious new responsibilities, including environmental justice-focused rulemaking, grants to address climate resiliency and PFAS.

Resilient Communities Climate grants

- Small community grant round completed
- Larger community round coming in November

Cumulative impacts rulemaking

- Kicked off with six public engagement meetings

Addressing PFAS pollution

- Rulemaking processes to ban PFAS underway
- Grant applications open for community drinking water grants
