

H.F. 4537

As Introduced

Subject Peat

Authors Lippert

Analyst Janelle Taylor

Date March 28, 2022

Summary

This bill would establish state goals to protect, restore, and enhance the state's presettlement peat soils or histosols that were drained for and used for agricultural purposes or pastures as of August 1, 2022. The goals are to protect, restore and enhance at least 25 percent by August 1, 2030, and at least 50 percent by August 1, 2040.
