

EXPANDING THE SAFETY AND WELLBEING OF MINNESOTA'S CHILDREN

Who is CornerHouse?

CornerHouse is a nationally-accredited Children's Advocacy Center with a 30+ year history of creating and training on evidence-based practices. We are a successful example of partnering with child protection, county agencies, and law enforcement to provide a collaborative response for children who disclose abuse. CornerHouse is a trauma-informed center focused on identifying, intervening, and interrupting the cycle of violence. We focus on improving safety and stability and reducing trauma so children and families can thrive.

15,000+
children
served

Evidence-Based Response Protocol

- Families supported by CornerHouse are much less likely to have a recurring incident of maltreatment
- Children's trauma symptoms are identified, escalated as needed, and addressed with ongoing family support and specialized mental health services
- Parents have the knowledge and skills they need to provide a safe and supportive home
- Children have increased school success and educational attainment
- Adolescents successfully enter the workforce
- Future improvement of public health and safety for our community

33,000+
professionals
trained

Nationally-Recognized Training Program

We are a globally-recognized expert training organization with over 30 years of experience pioneering a continuum of best practices in interviewing children and vulnerable adults.

Funding Request - Infrastructure Support

\$1,177,500 will provide:

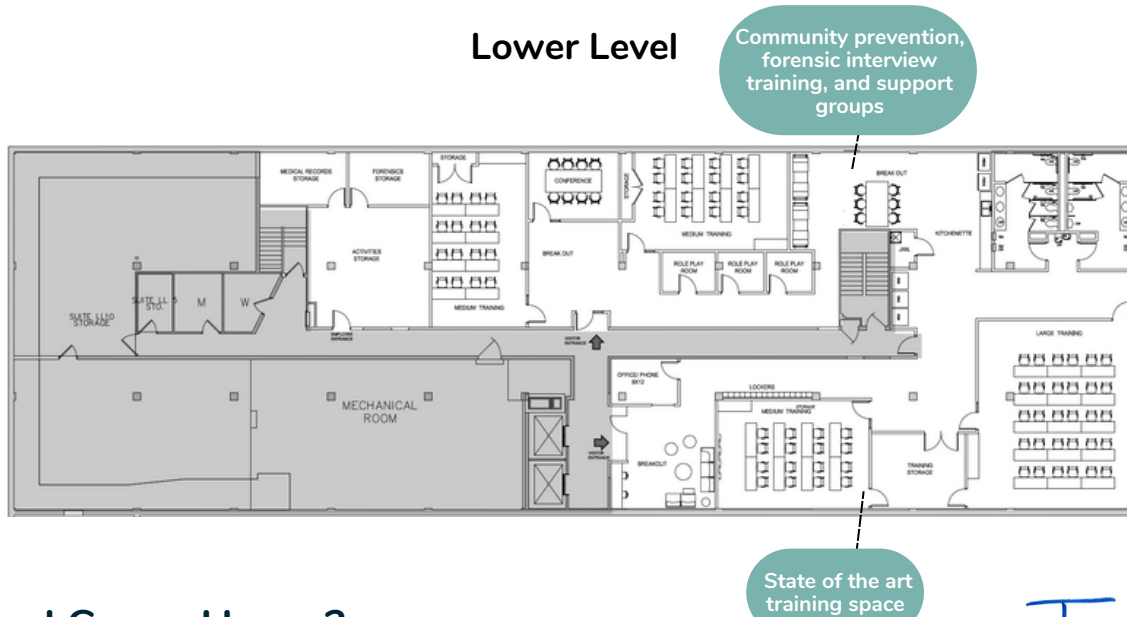

- Infrastructure support needed to expand children and family services to 3,000 additional children
- Expand our geographic reach
- Provide the platform for prevention and mental health services in both rural and urban Minnesota
